Access The Next-Generation of Crypto Launchpads

WITH nakapad

Problem

Navigating cryptocurrency is not as straightforward as it appears. The key lies in investing in a project that will endure, advance, and offer a sustainable business model along with token appreciation.

Currently, launchpads primarily provide a technical foundation solely for fundraising. However, there's a need to assist projects throughout their entire lifecycle to foster shared success and drive increased revenue.

Why Nakapad?

## SOLVING THE CHALLENGES IN BLOCKCHAIN PROJECT LAUNCHES

92% FAILURE RATE

Without the right mentorship and solid support system in place, tackling the state-of-the-art tech of blockchain has led to an astonishing 92% failure rate among projects.

LIMITED ACCESS

Limited access to early-stage investment opportunities often hinders the growth of startups.

COMPLEXITY OF LAUNCH

Innovators and project founders often face complex launches. Navigating technical, regulatory, and liquidity challenges makes project initiation daunting.

A Case Study in Project Launch

- **NAKAPAD** will play a private role in making projects survive and thrive and give them the tools needed to overcome changes and market fluctuations :

- Despite being a real project with a tangible product, significant user base, and extensive marketing efforts, the $KASTA token experienced a drastic decline of -98%.

- The project encountered hurdles due to an inadequate token economic model, underestimation of the utility of market manipulation, and a strategy driven by significant token sell-offs.

Our Roadmap: From Launchpad to Bridge, DEX, and Chain

PHASE 1:
FOUNDATION AND STRATEGY

- Establish the Nakapad business model and initial deck.
- Conduct a seed funding round, onboarding strategic investors.

✓ Q2 2023

PHASE 2:
DEVELOPMENT AND INITIAL LAUNCH

- Hire key personnel and develop the Nakapad minimum viable product (MVP), including the launchpad and toolbox.
- Begin onboarding projects to the platform
- Bootstrap the nakapad community

✓ Q3 2023 - Q1 2024

PHASE 3:
GO-TO-MARKET

- Open a private funding round and finalize the go-to-market strategy.
- Launch the toolbox service
- Implement the go-to-market strategy, including onboarding key opinion leaders (KOLs), collaborations with centralized exchanges (CEX), and other partnerships.

Q2 2024

PHASE 4:
SCALING UP

- Conduct a public funding round to further capitalize the project.
- Launch the IDO (Initial DEX Offering) platform to the public.

Q2/Q3 2024

PHASE 5:
BROADENING THE HORIZON

- Expand the Nakapad offer, introducing a grant program on new blockchain networks and exploring additional services and tools to support projects at various stages of their lifecycle.

Q4 2024

NakaPad: Redefining Standards

Nakapad is revolutionizing the launchpad industry. With our innovative ranking method, we highlight and support the growth of the most promising projects. What do we stand for? Absolute transparency, unwavering trust, and steadfast integrity.
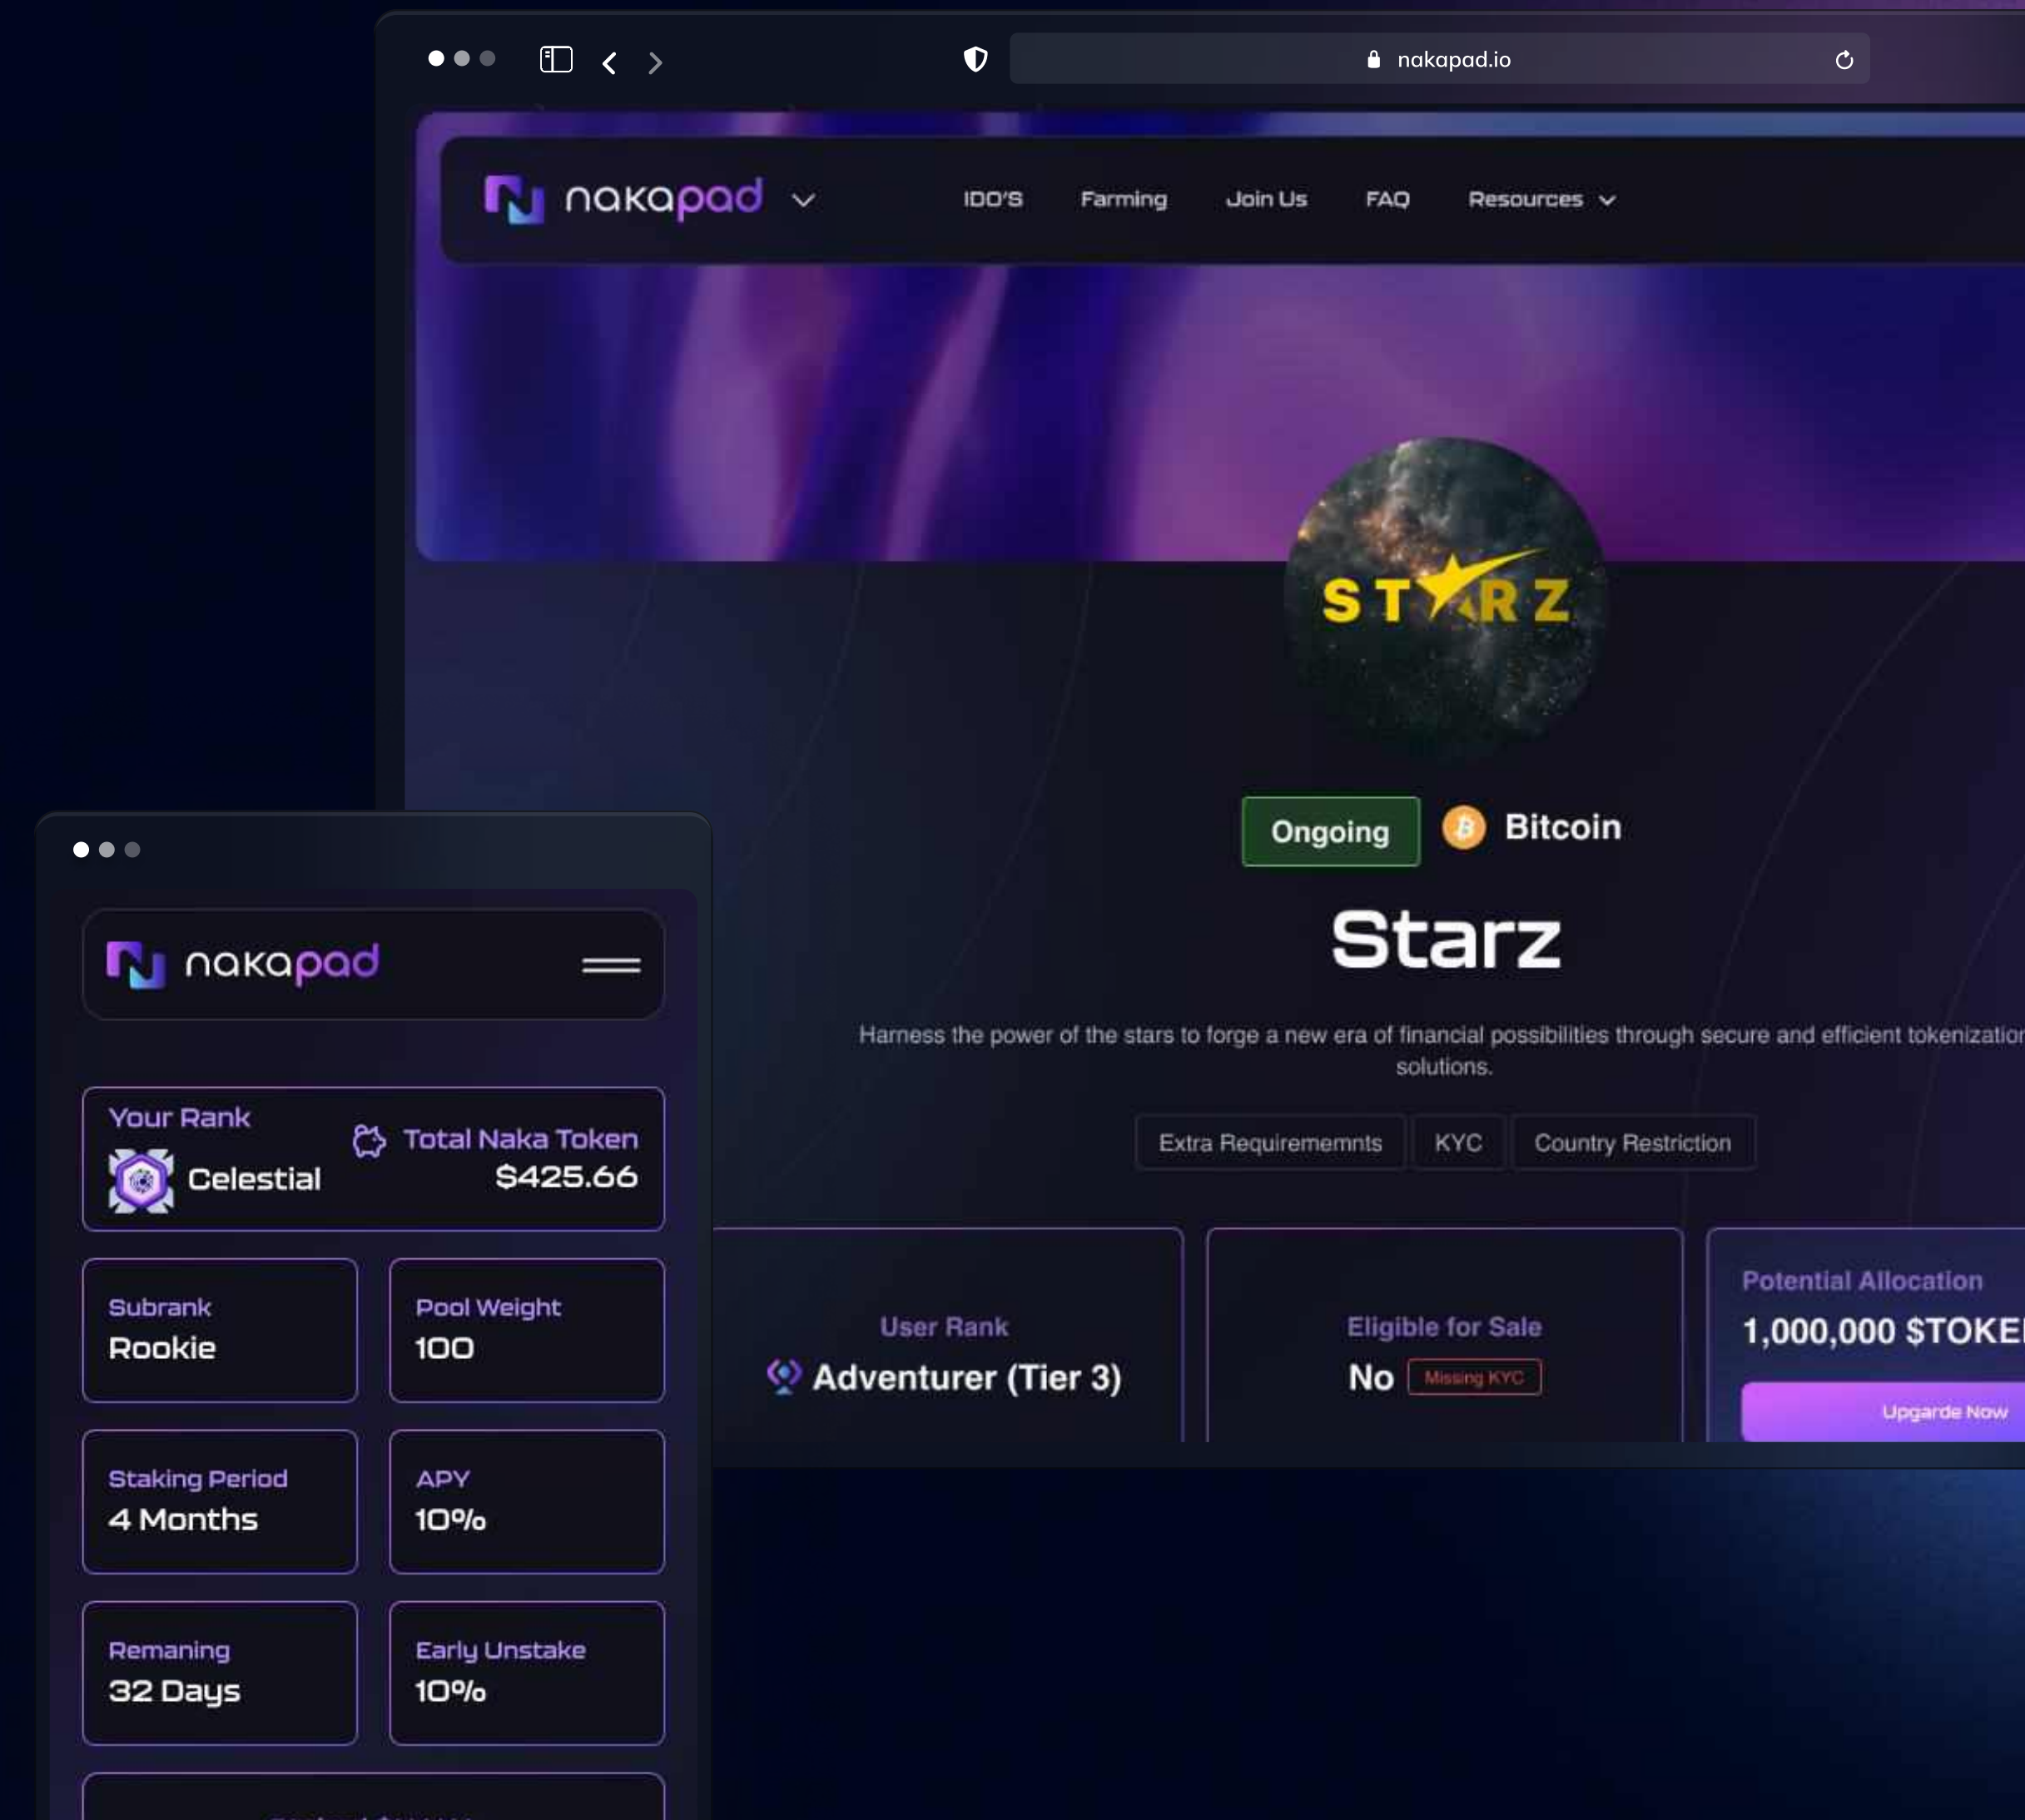

# INTRODUCING THE NAKAPAD SELF SERVICE TOOLKIT

Reward Pool   Safe Vault   Token Minter   Block Incinerator

Reward Pool

Enhance your community engagement with our Reward Pool, designed for easy setup of custom reward schemes. This feature keeps your community motivated, allowing for adjustments based on feedback. With our user-friendly interface, adapting to your project's growth is straightforward, ensuring sustained community involvement and loyalty.

✓ READY
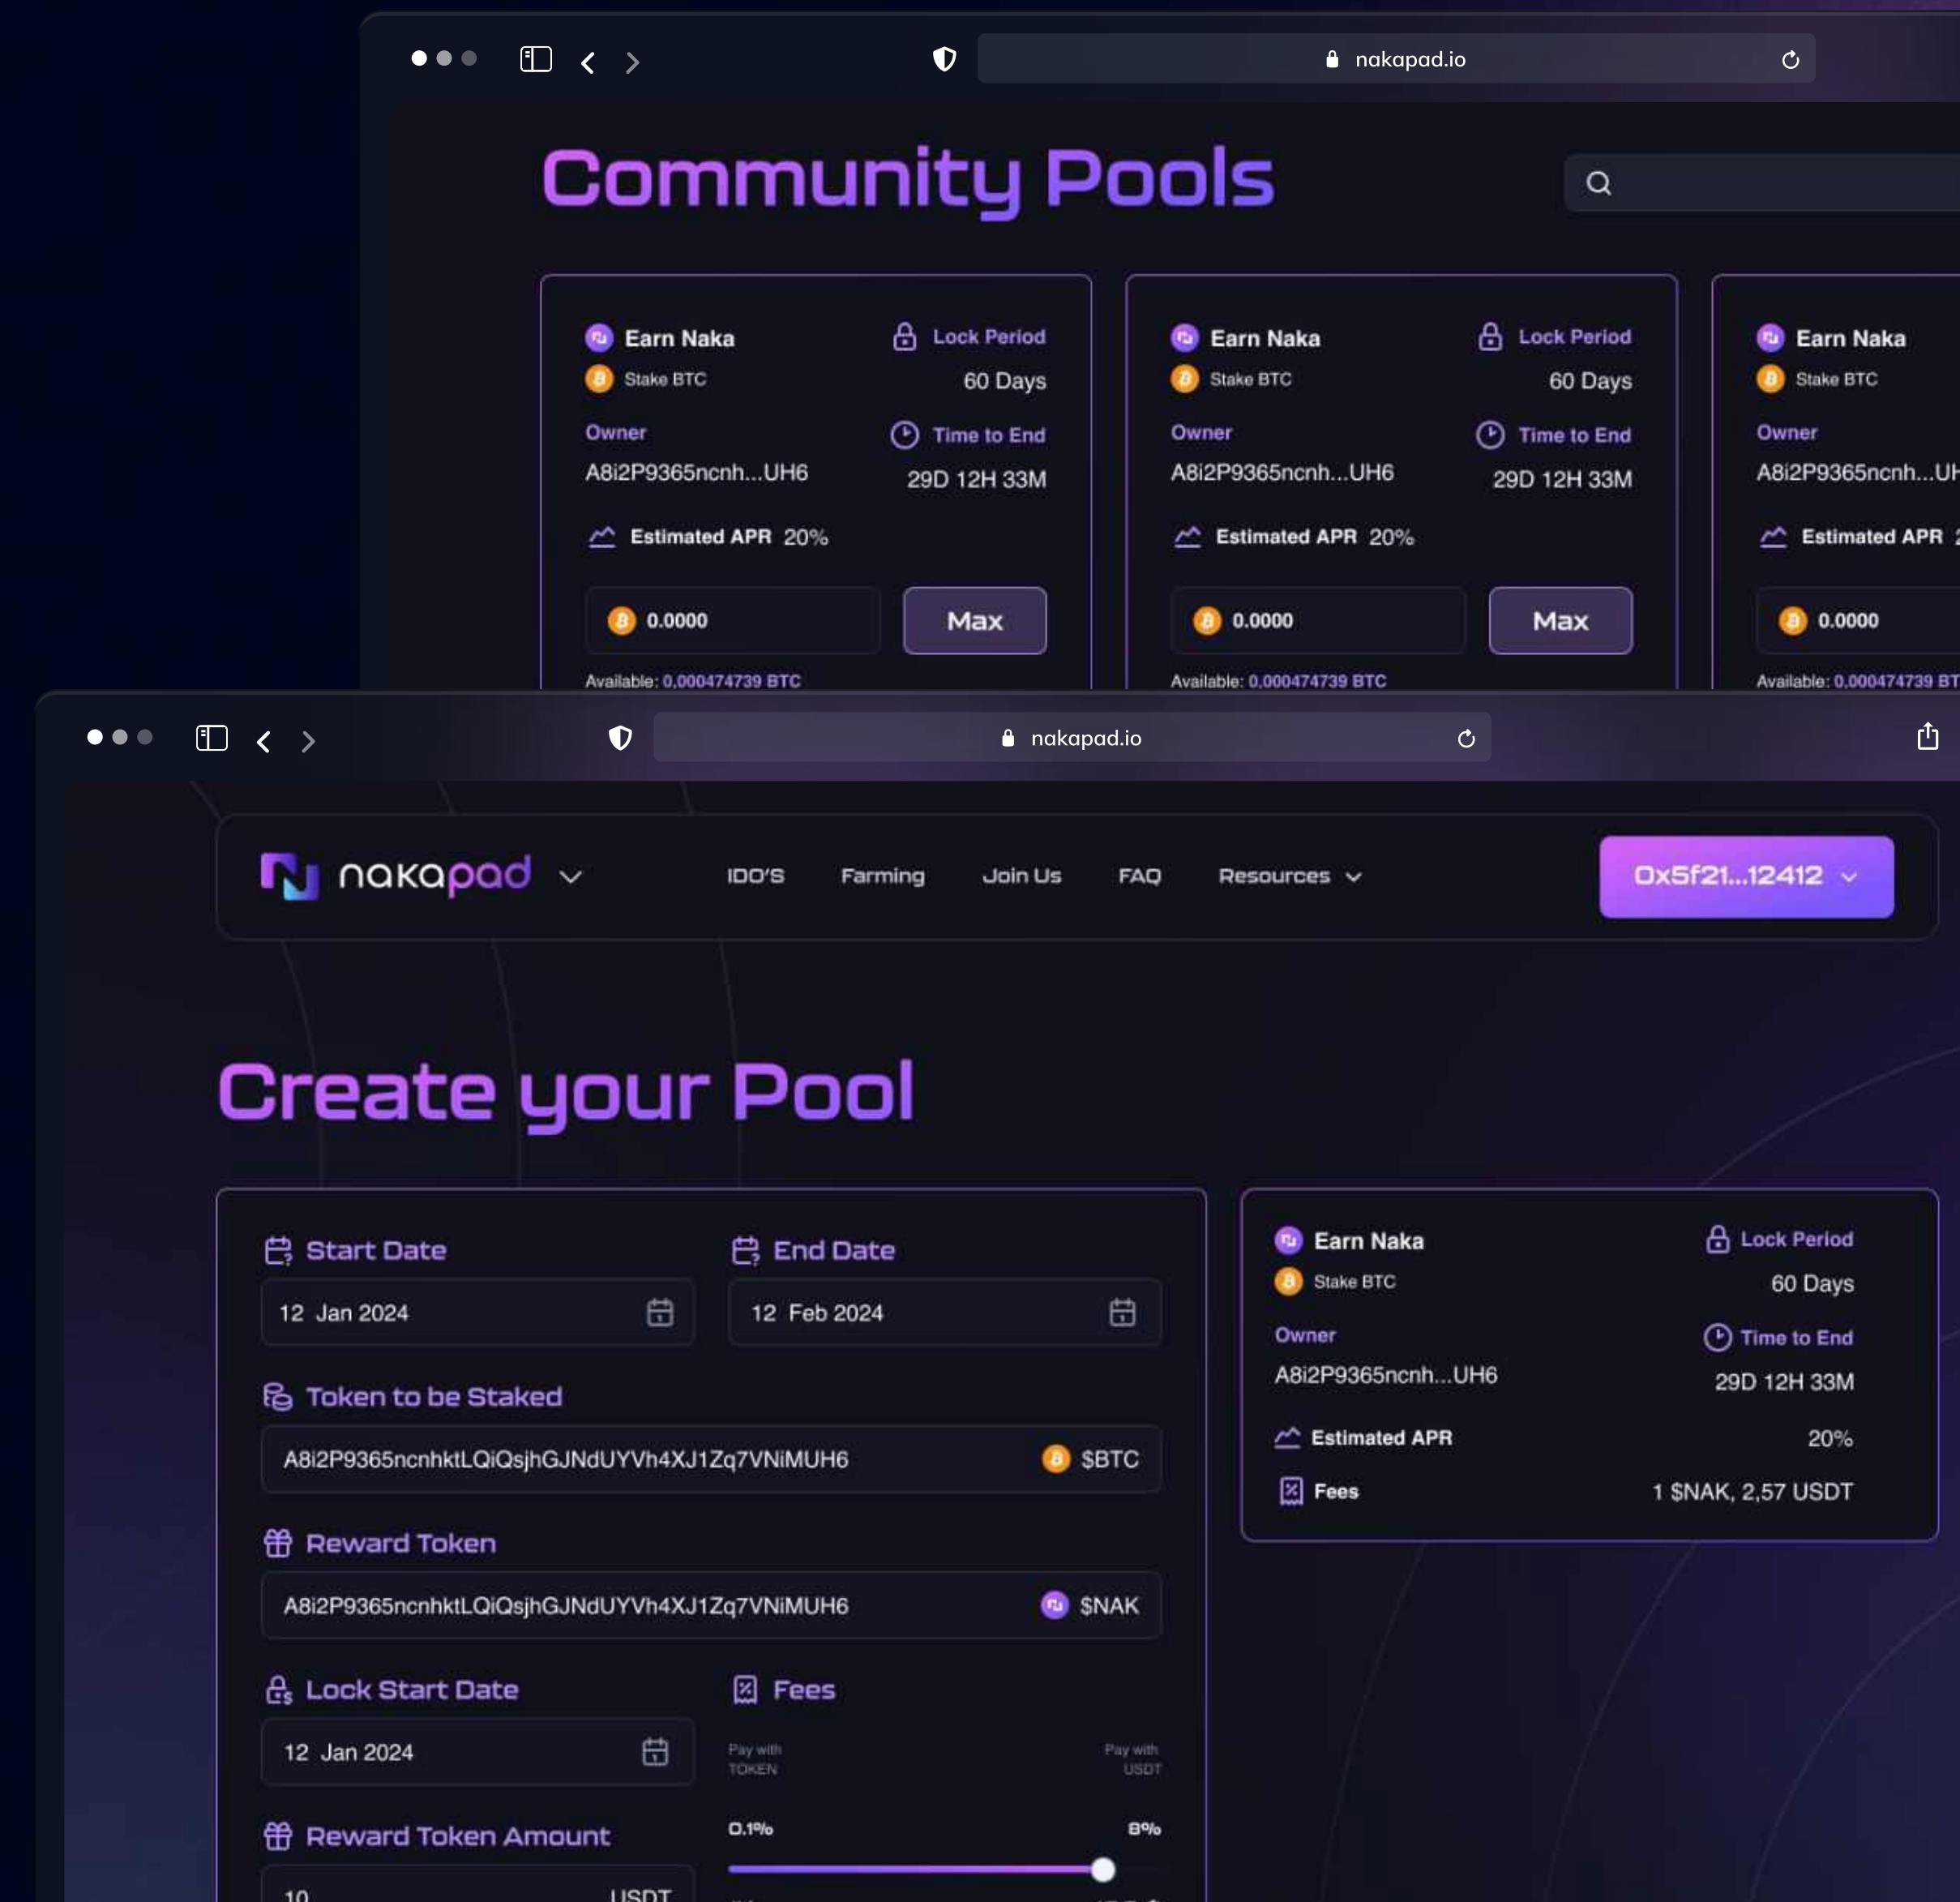

Safe Vault

Our Safe Vault guarantees the integrity of your project's finances. Offering a transparent and dependable mechanism for fund management and token distribution, it ensures accuracy and accountability in every transaction. Crafted to foster confidence among contributors, it lays a solid groundwork for your project's prosperity.

✓ READY
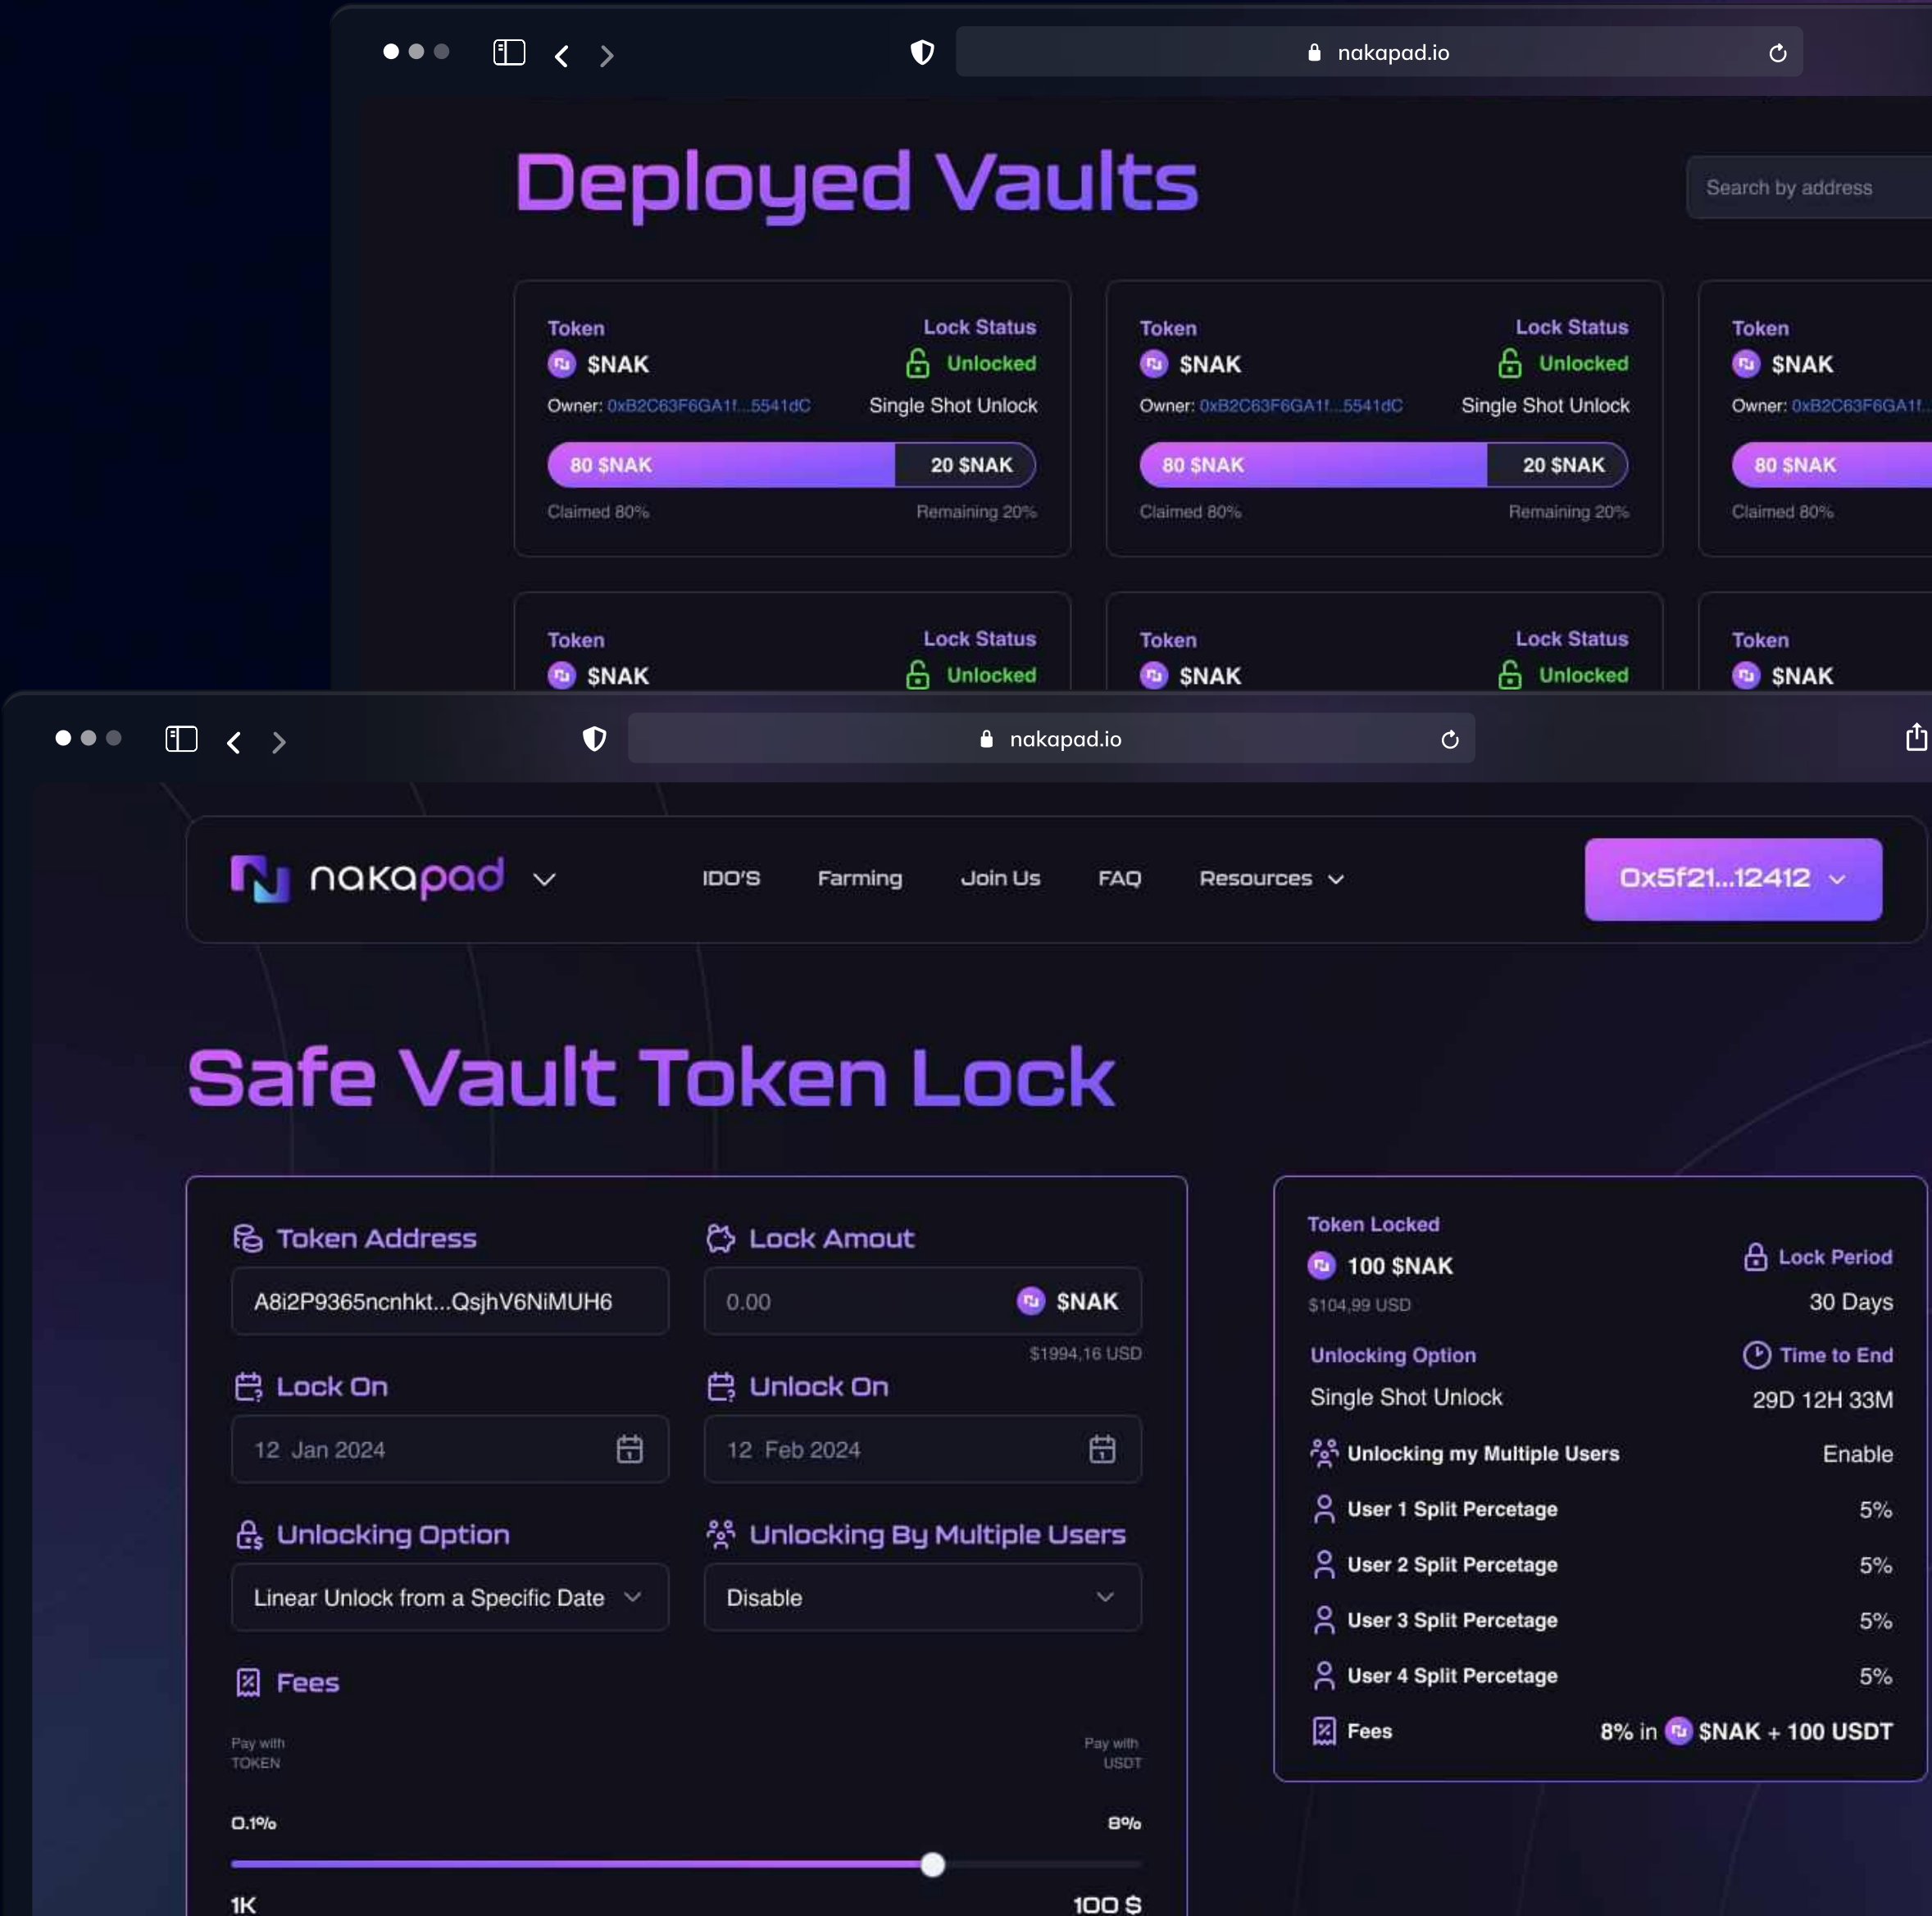

Token Minter

An intuitive feature that simplifies the token creation process. With an interface that caters to both the tech-savvy and those new to blockchain. This tool aims to guide you through creating and launching your token with ease. Reinforcing our focus is on removing technical barriers, making token launch accessible to a broader range of projects.
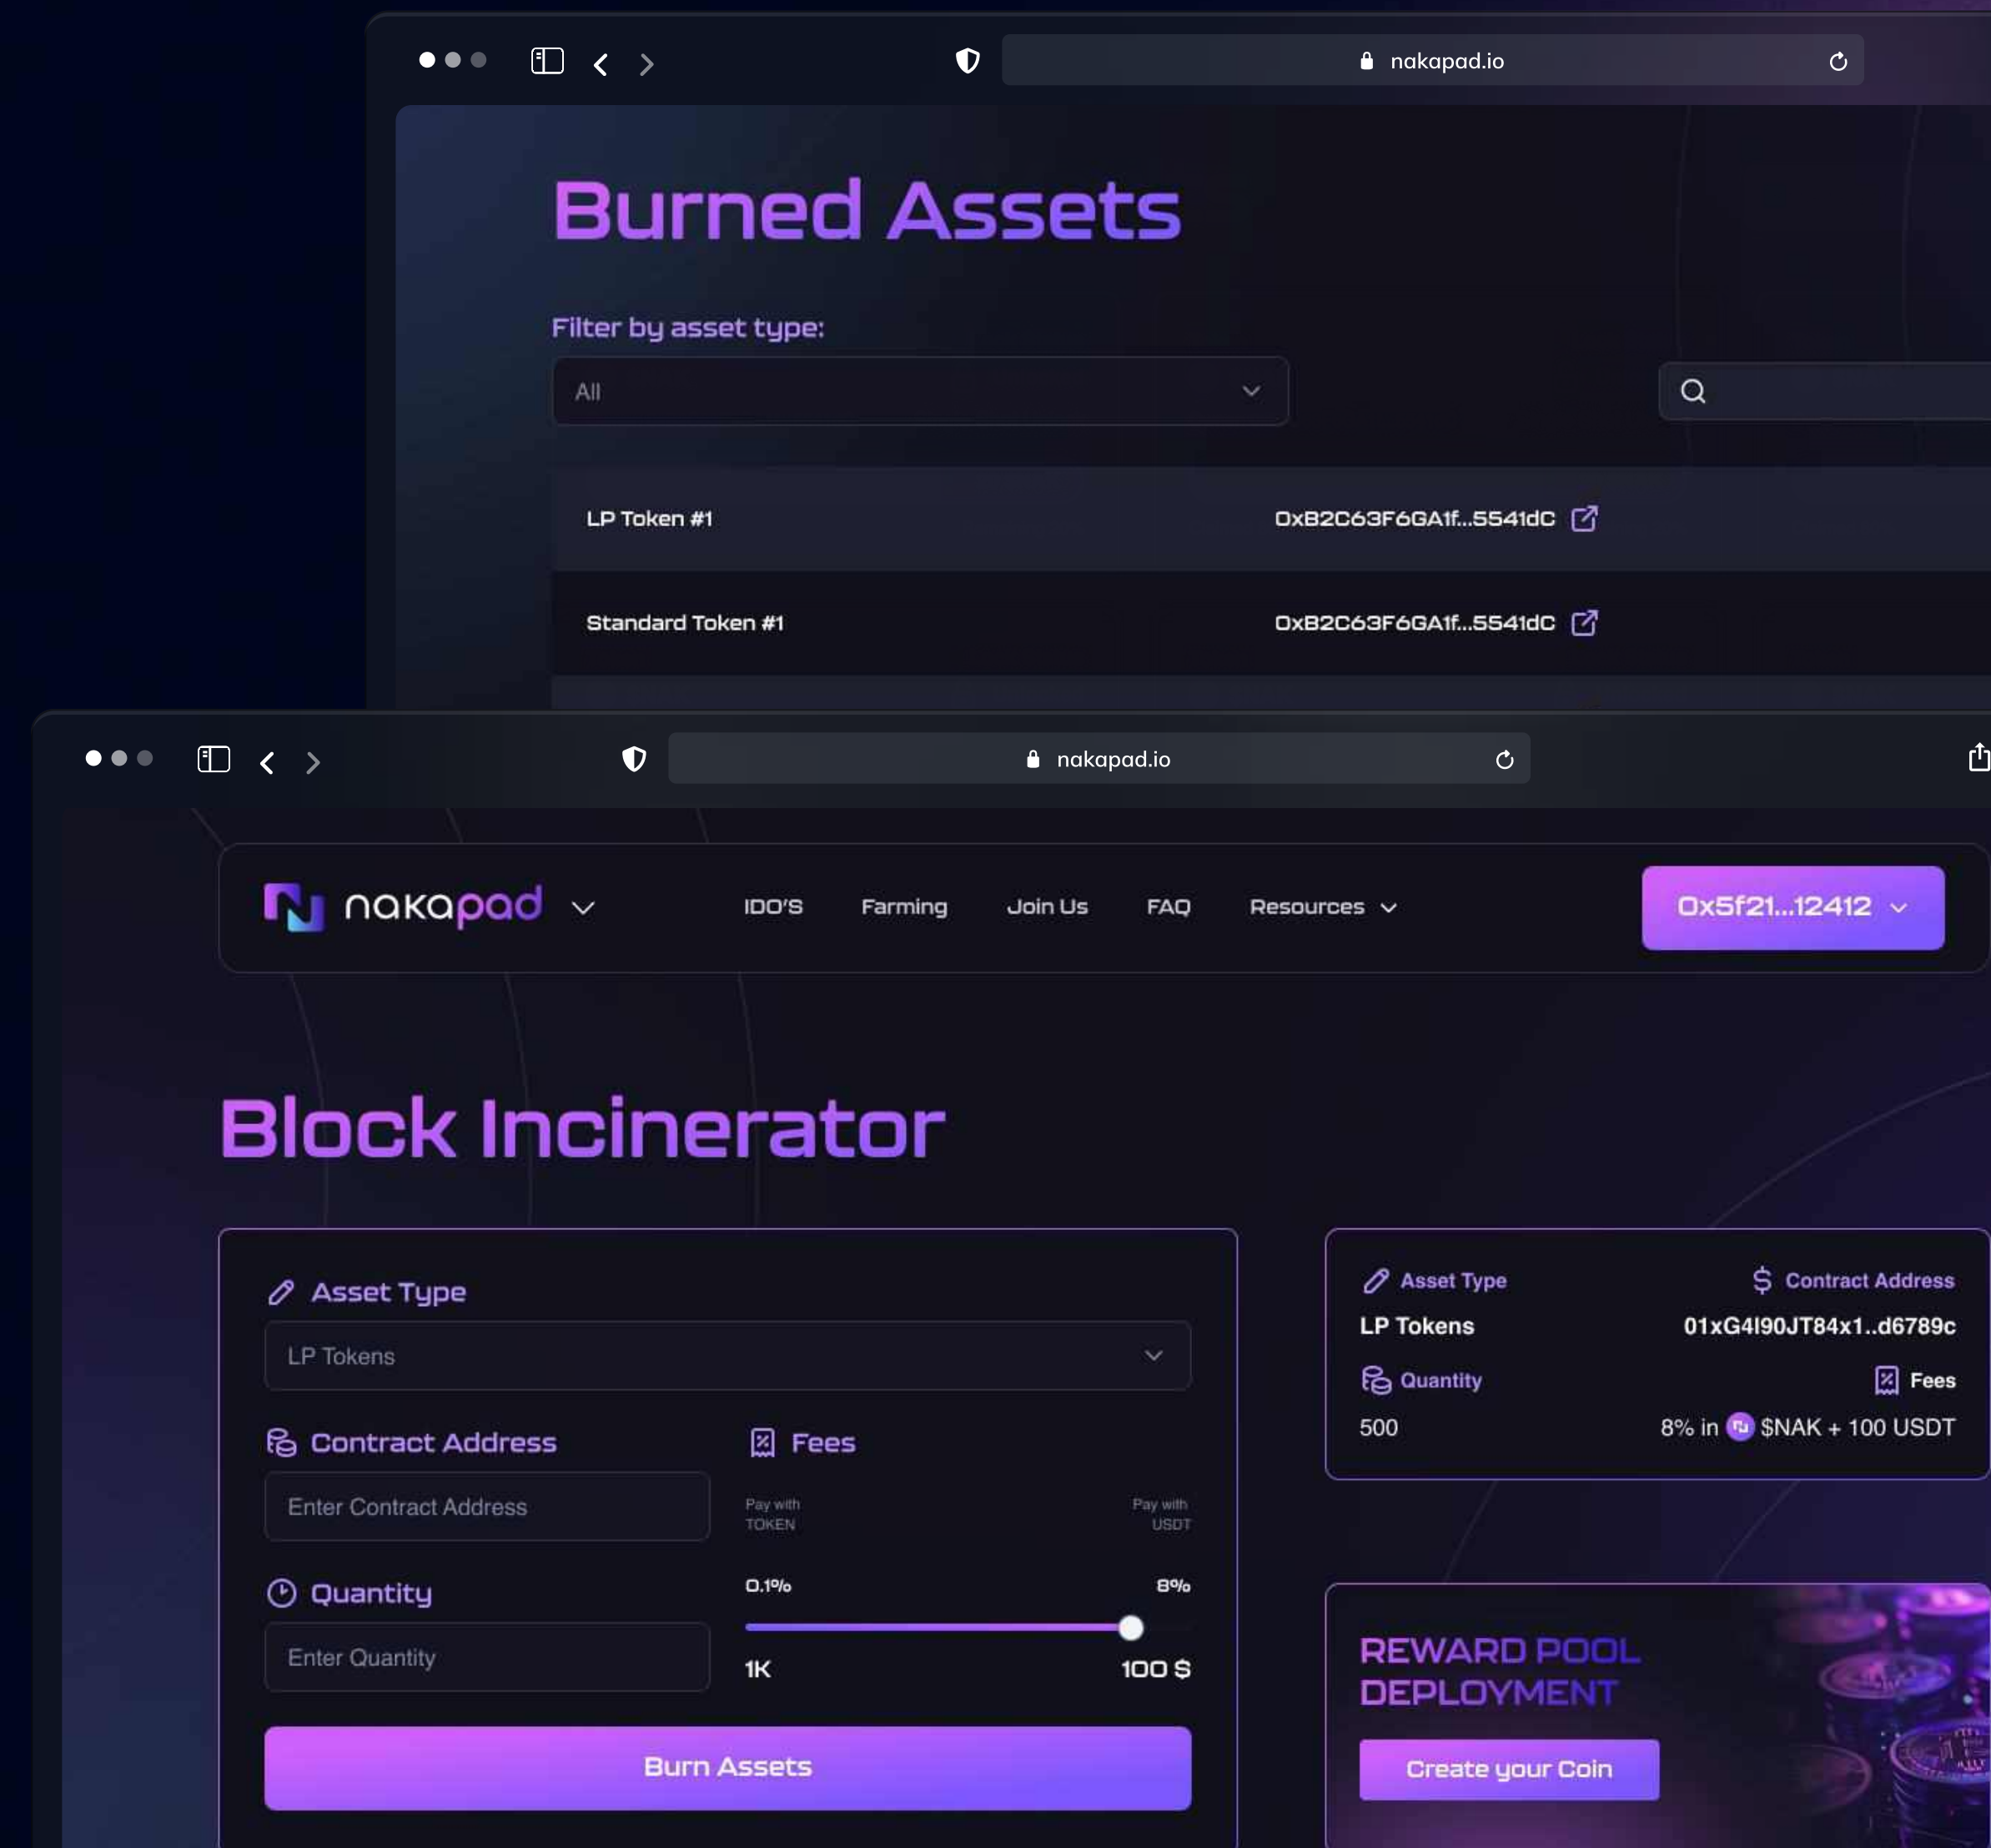

✓ READY
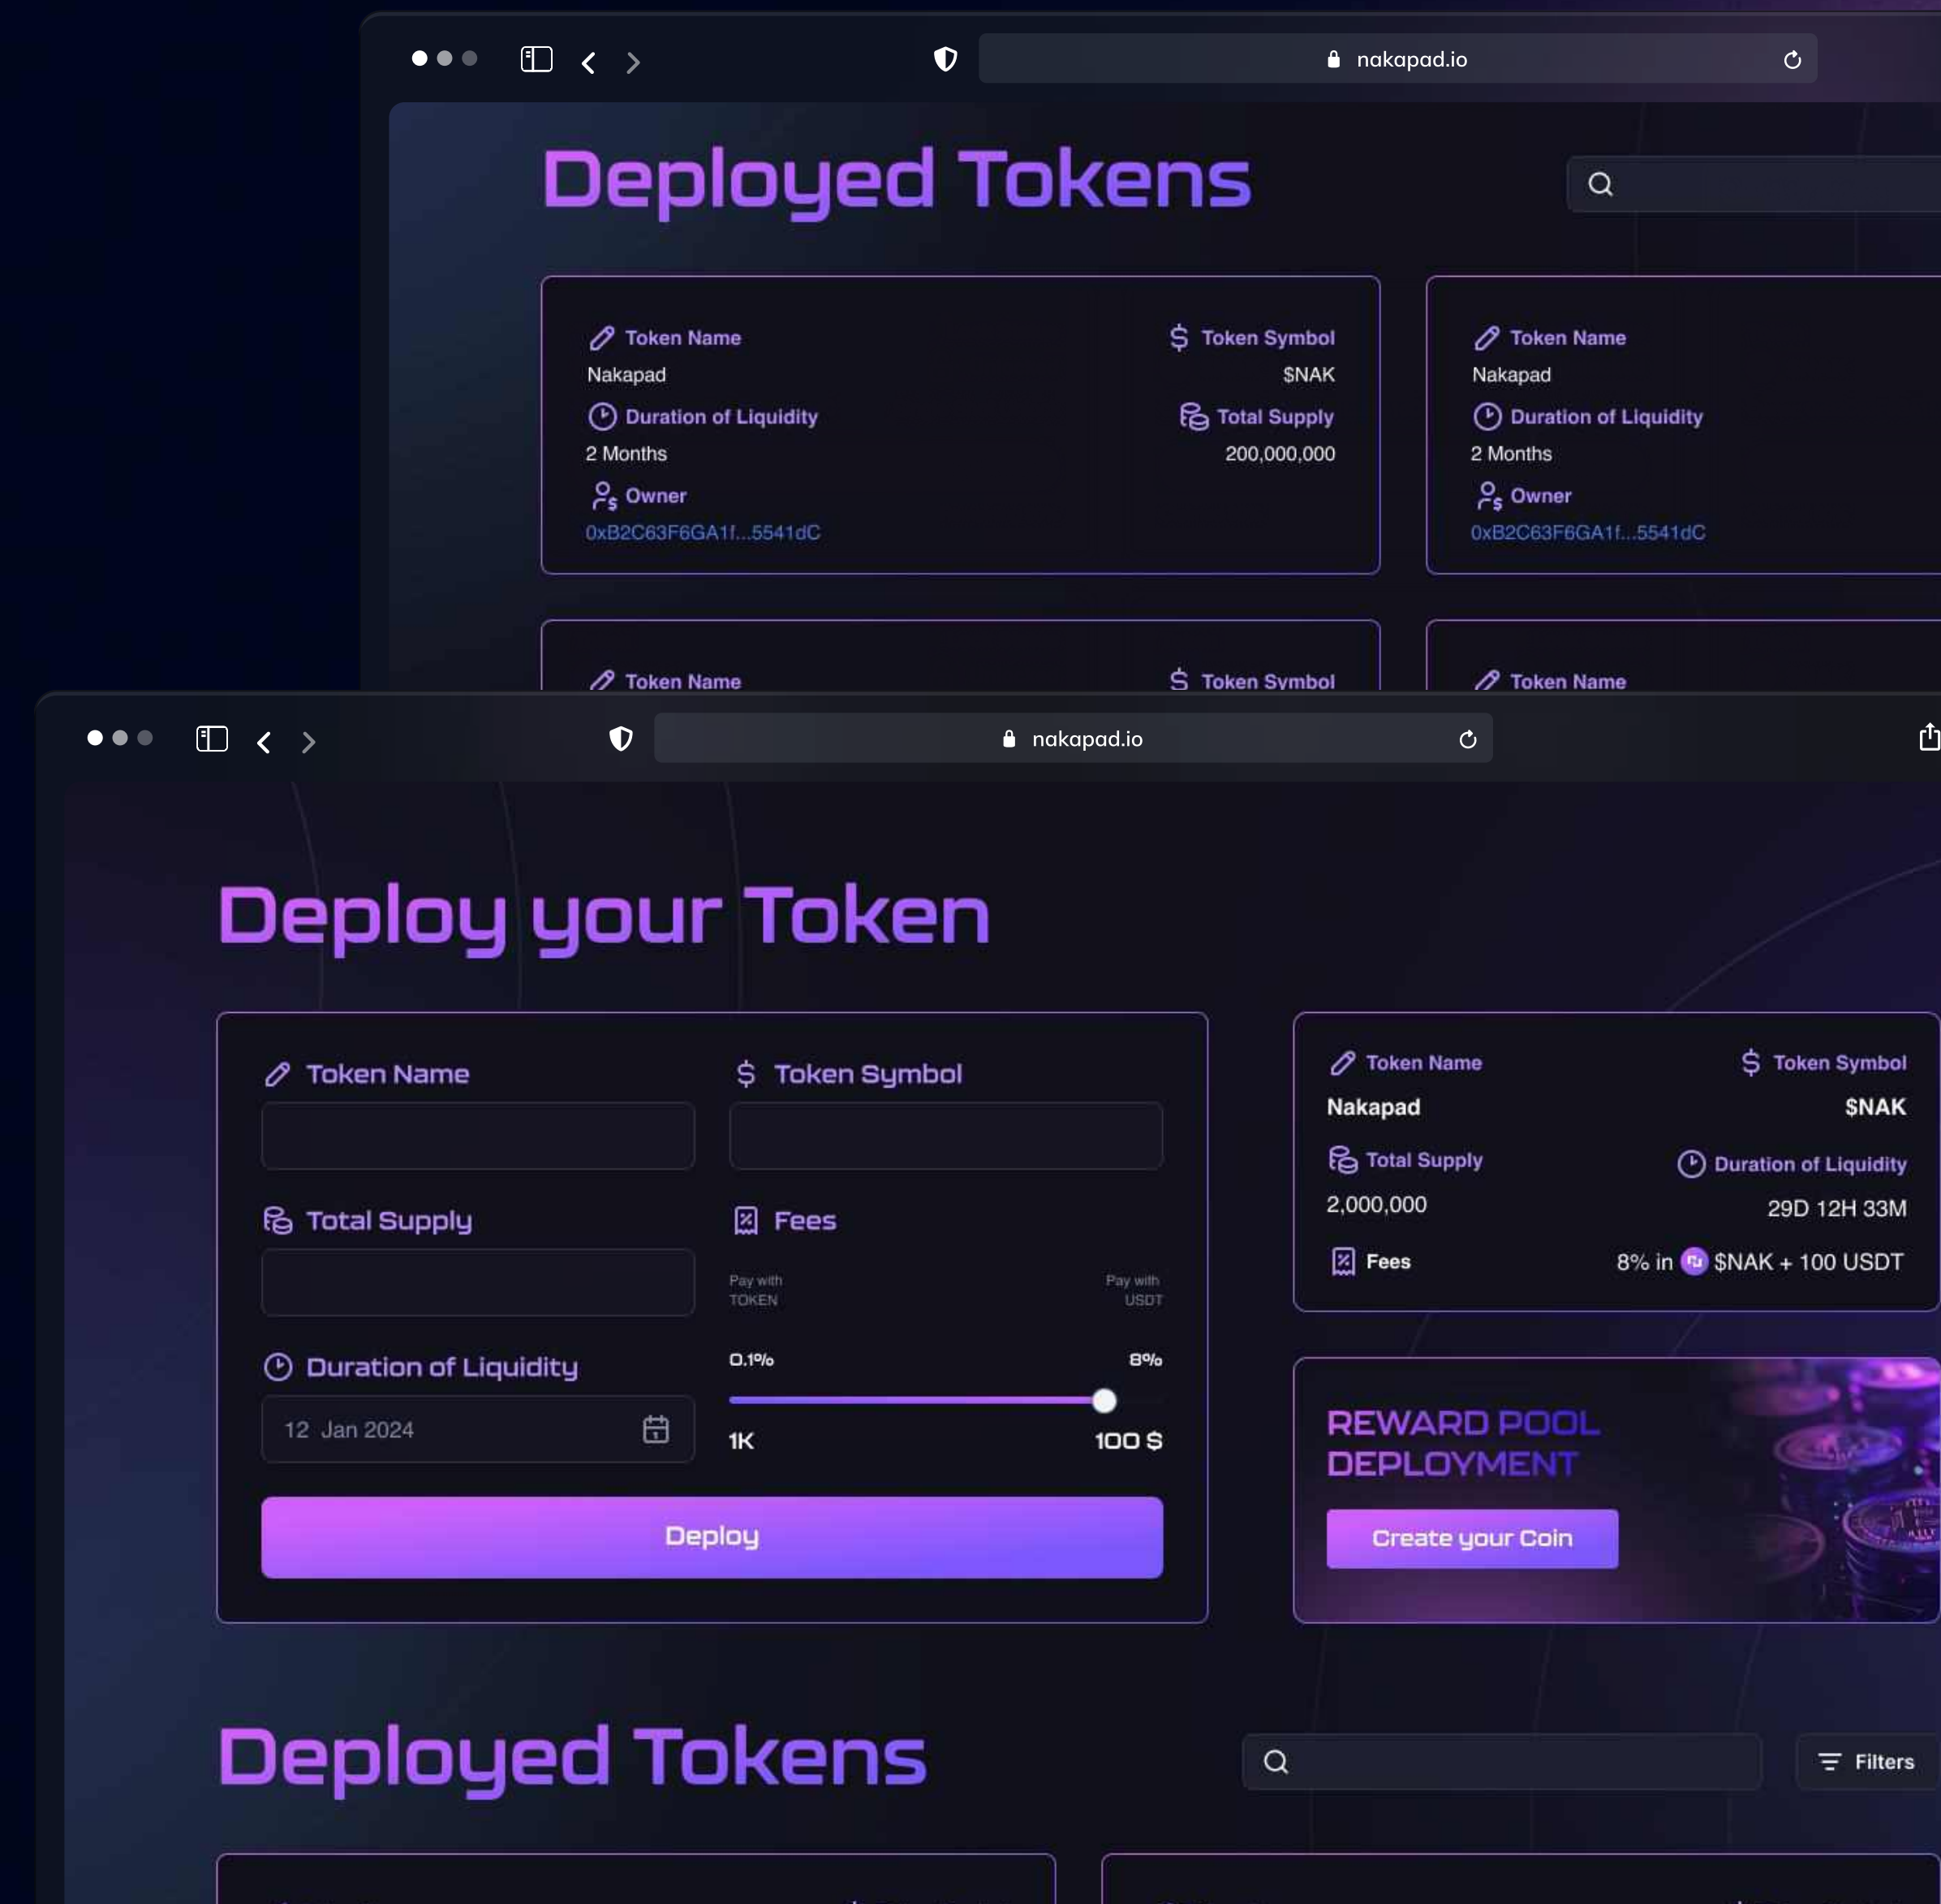

Block Incinerator

Introducing a verifiable on-chain mechanism for instant asset burning, triggered either instantly or when specific conditions are met. Say goodbye to vague promises about buybacks and burns. Our innovative solution ensures complete transparency and verifiability, with all actions executed directly on-chain.
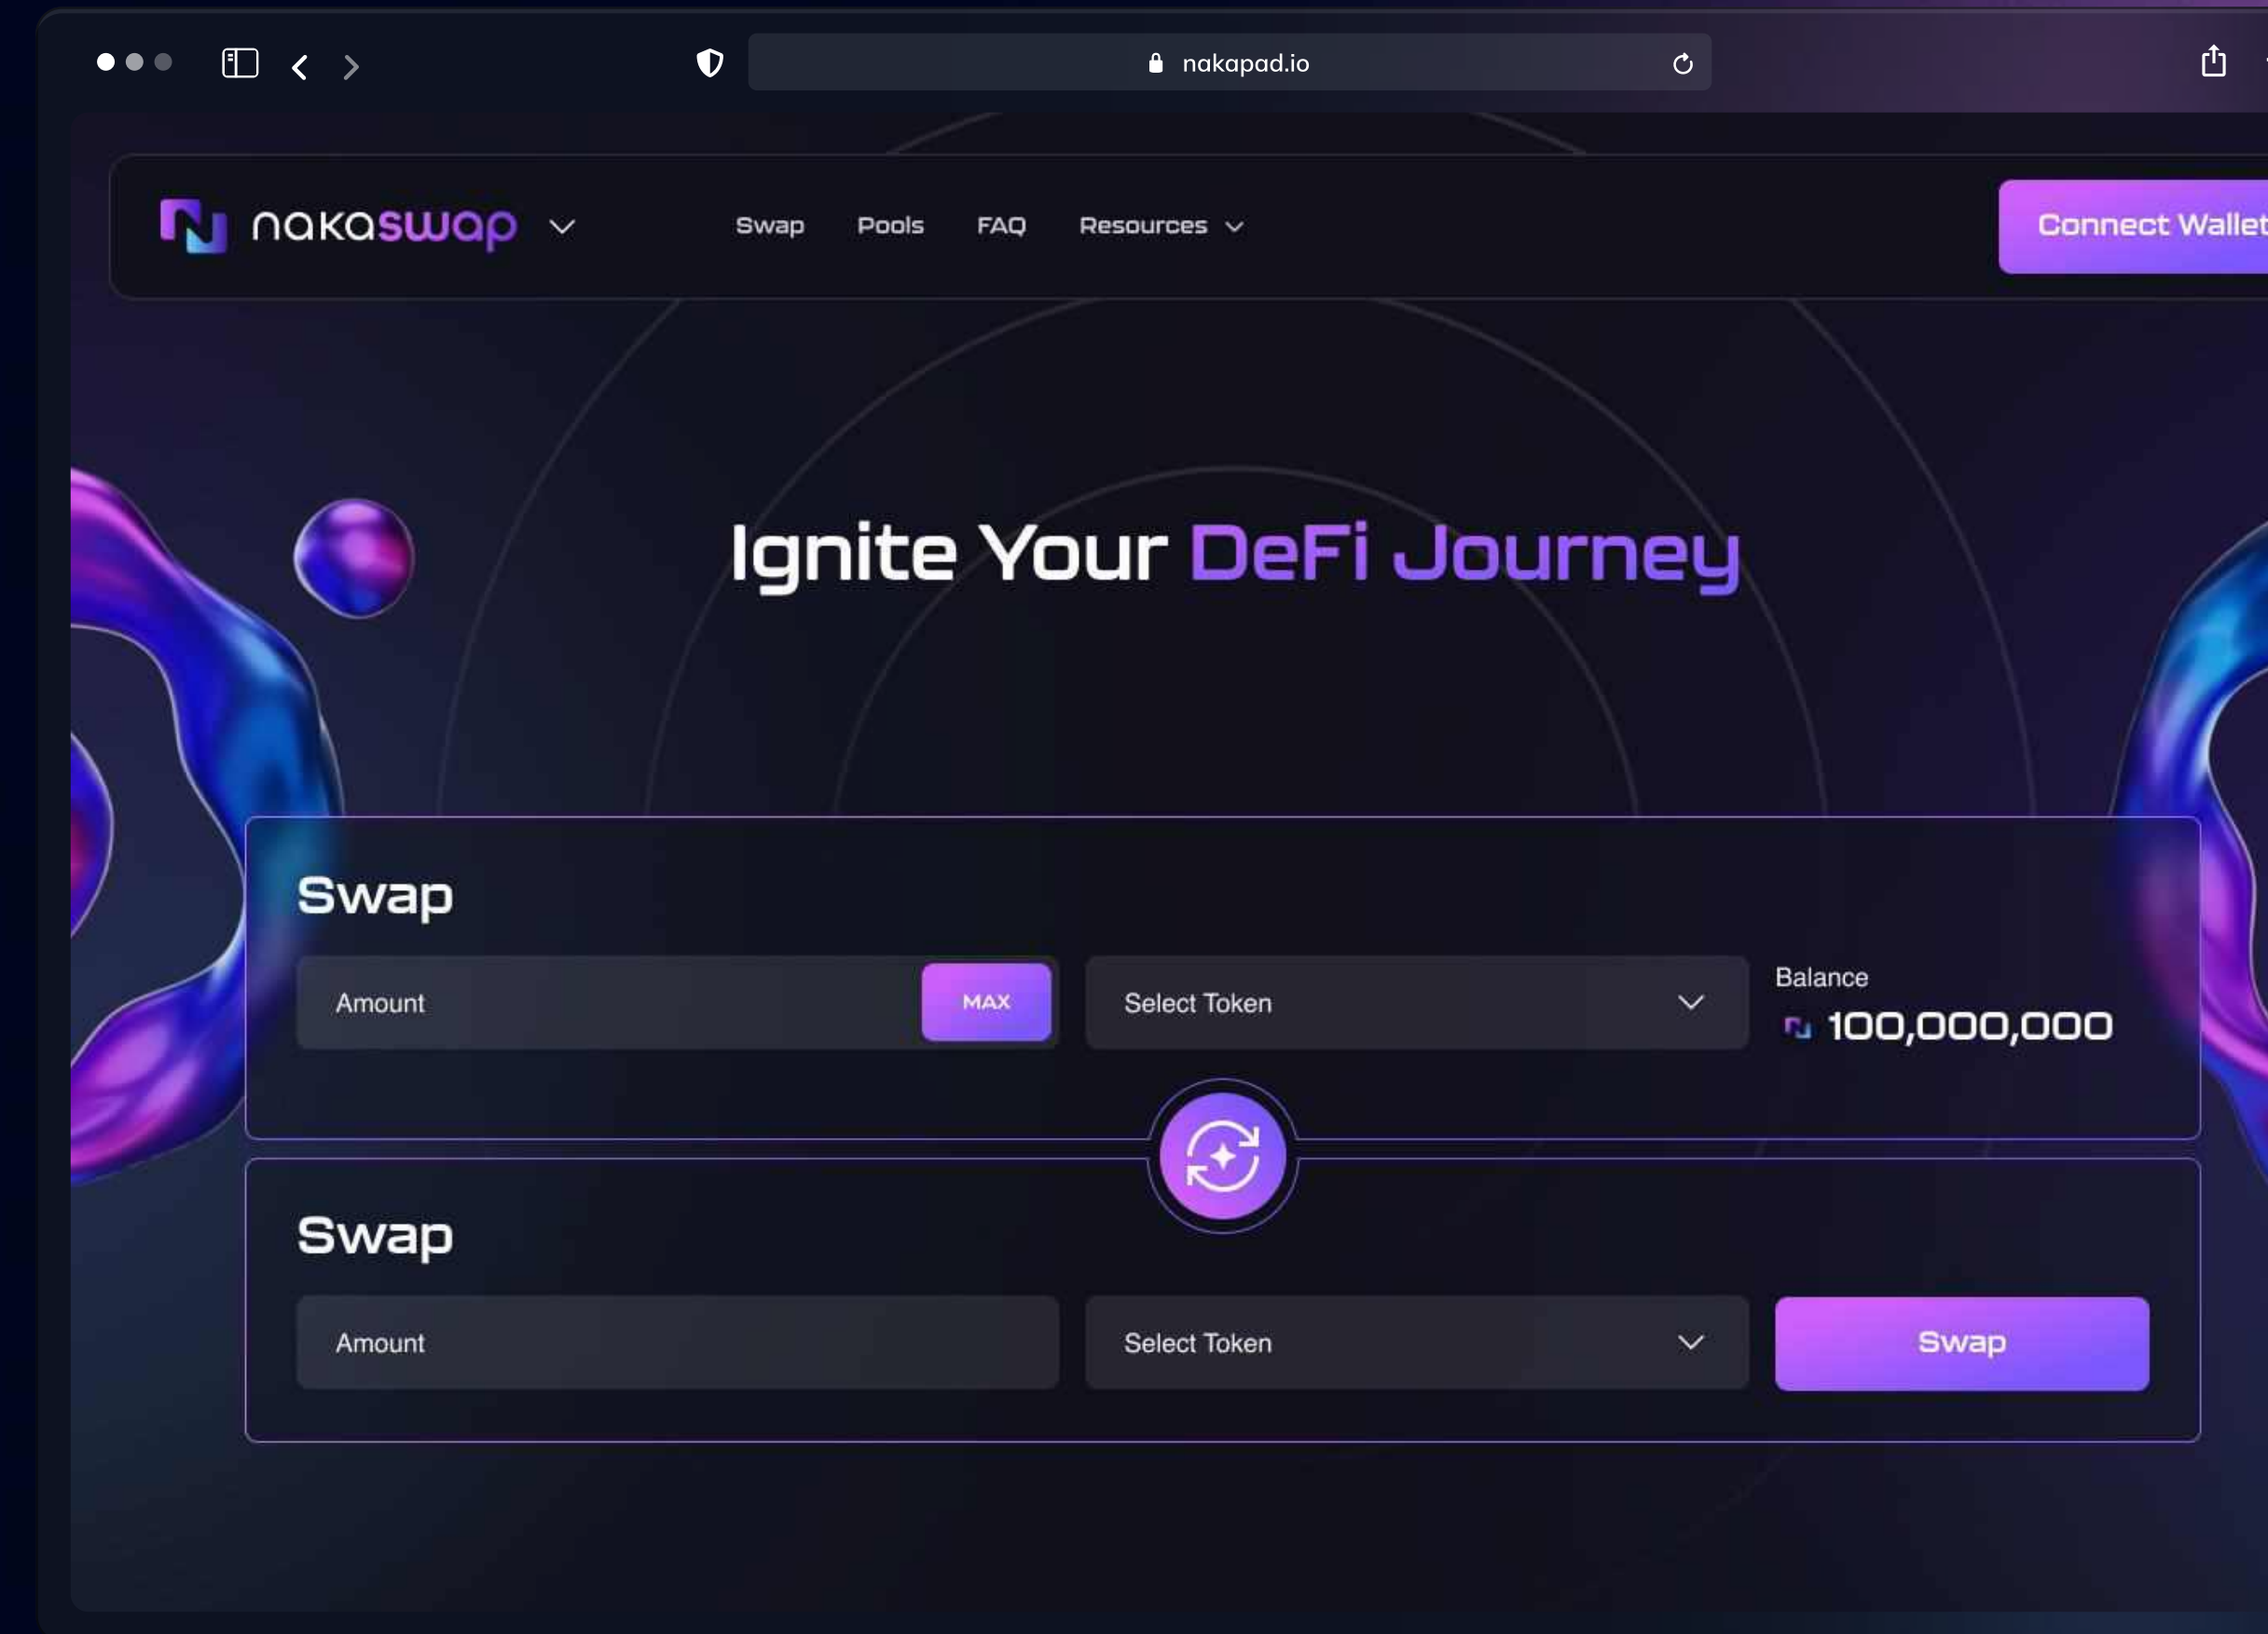

✓ READY

NakaSwap: Liquidity & Launch Hub

Nakaswap stands as your premier destination for liquidity solutions. With our creative incentive programs, projects gain not only a protective buffer but also a significant boost to their liquidity, all while fostering and valuing the community's active participation and support.

UNDER DEVELOPMENT

NakaBridge: Seamless Connectivity

Effortlessly bridge your tokens across multiple blockchain platforms, expanding your project's reach and simplifying cross-chain interactions. It's your project's key to surmounting single blockchain constraints, granting access to a wider network that bolsters adaptability and nurtures growth potential.
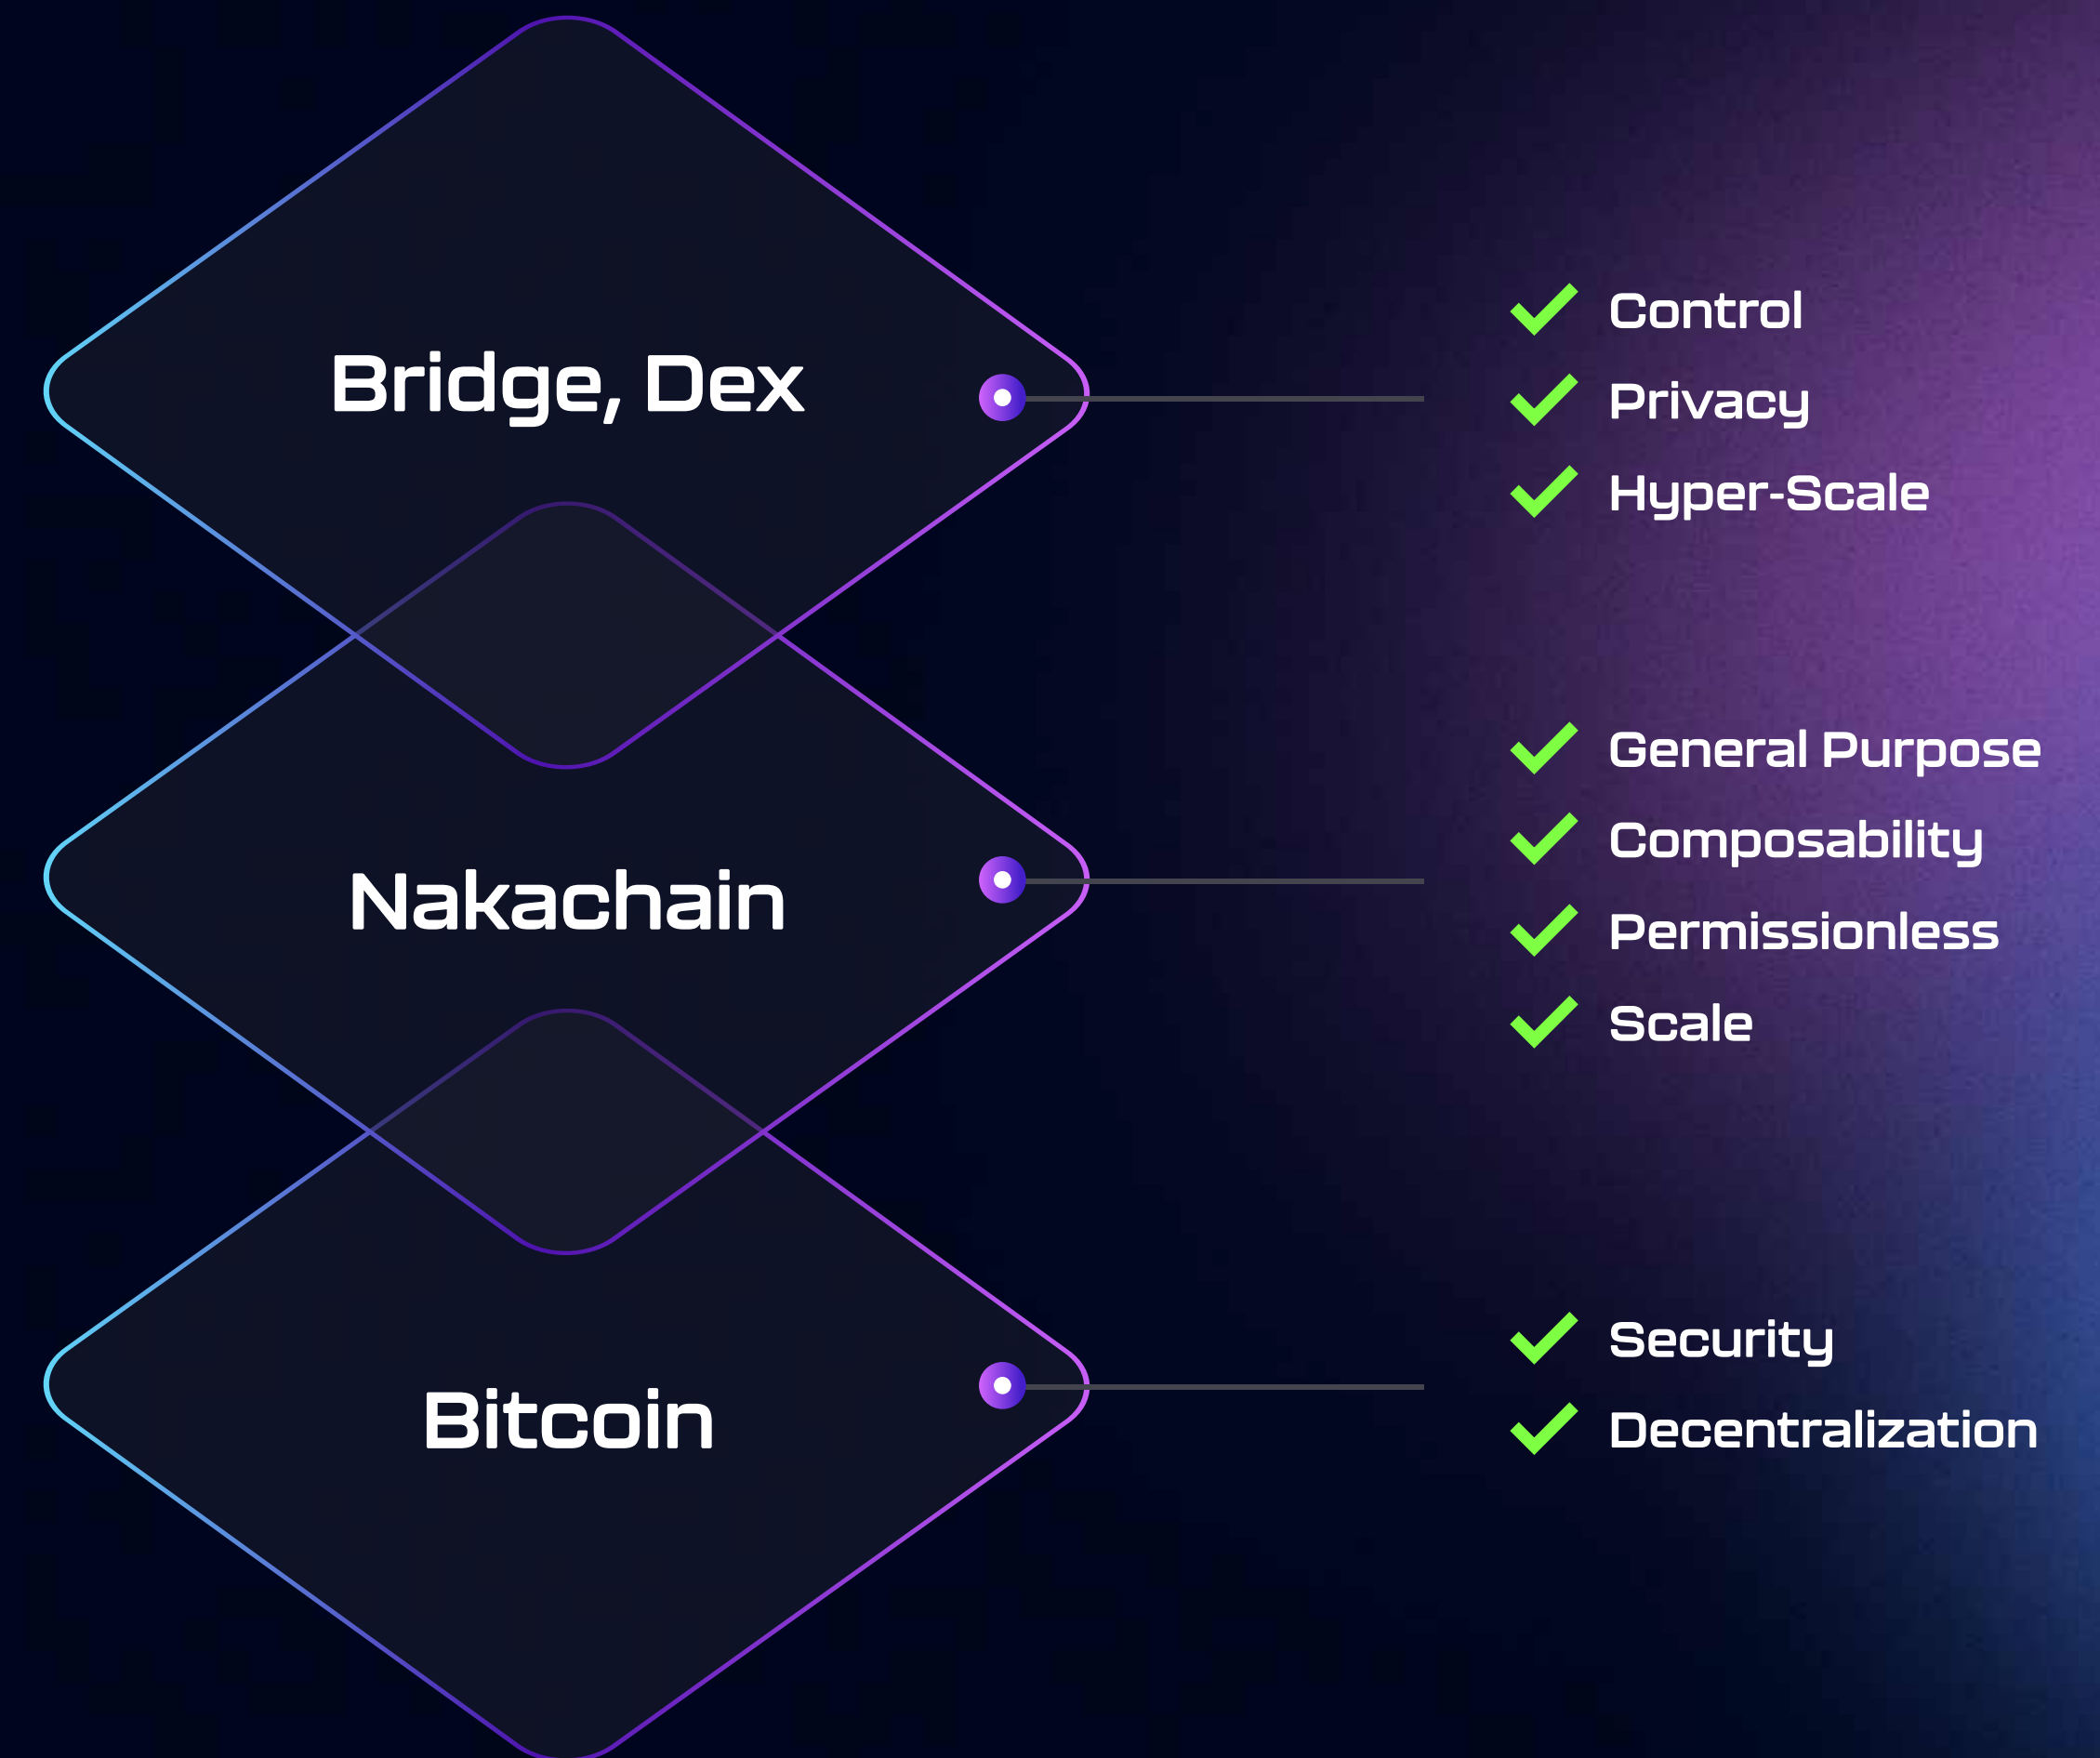

UNDER DEVELOPMENT
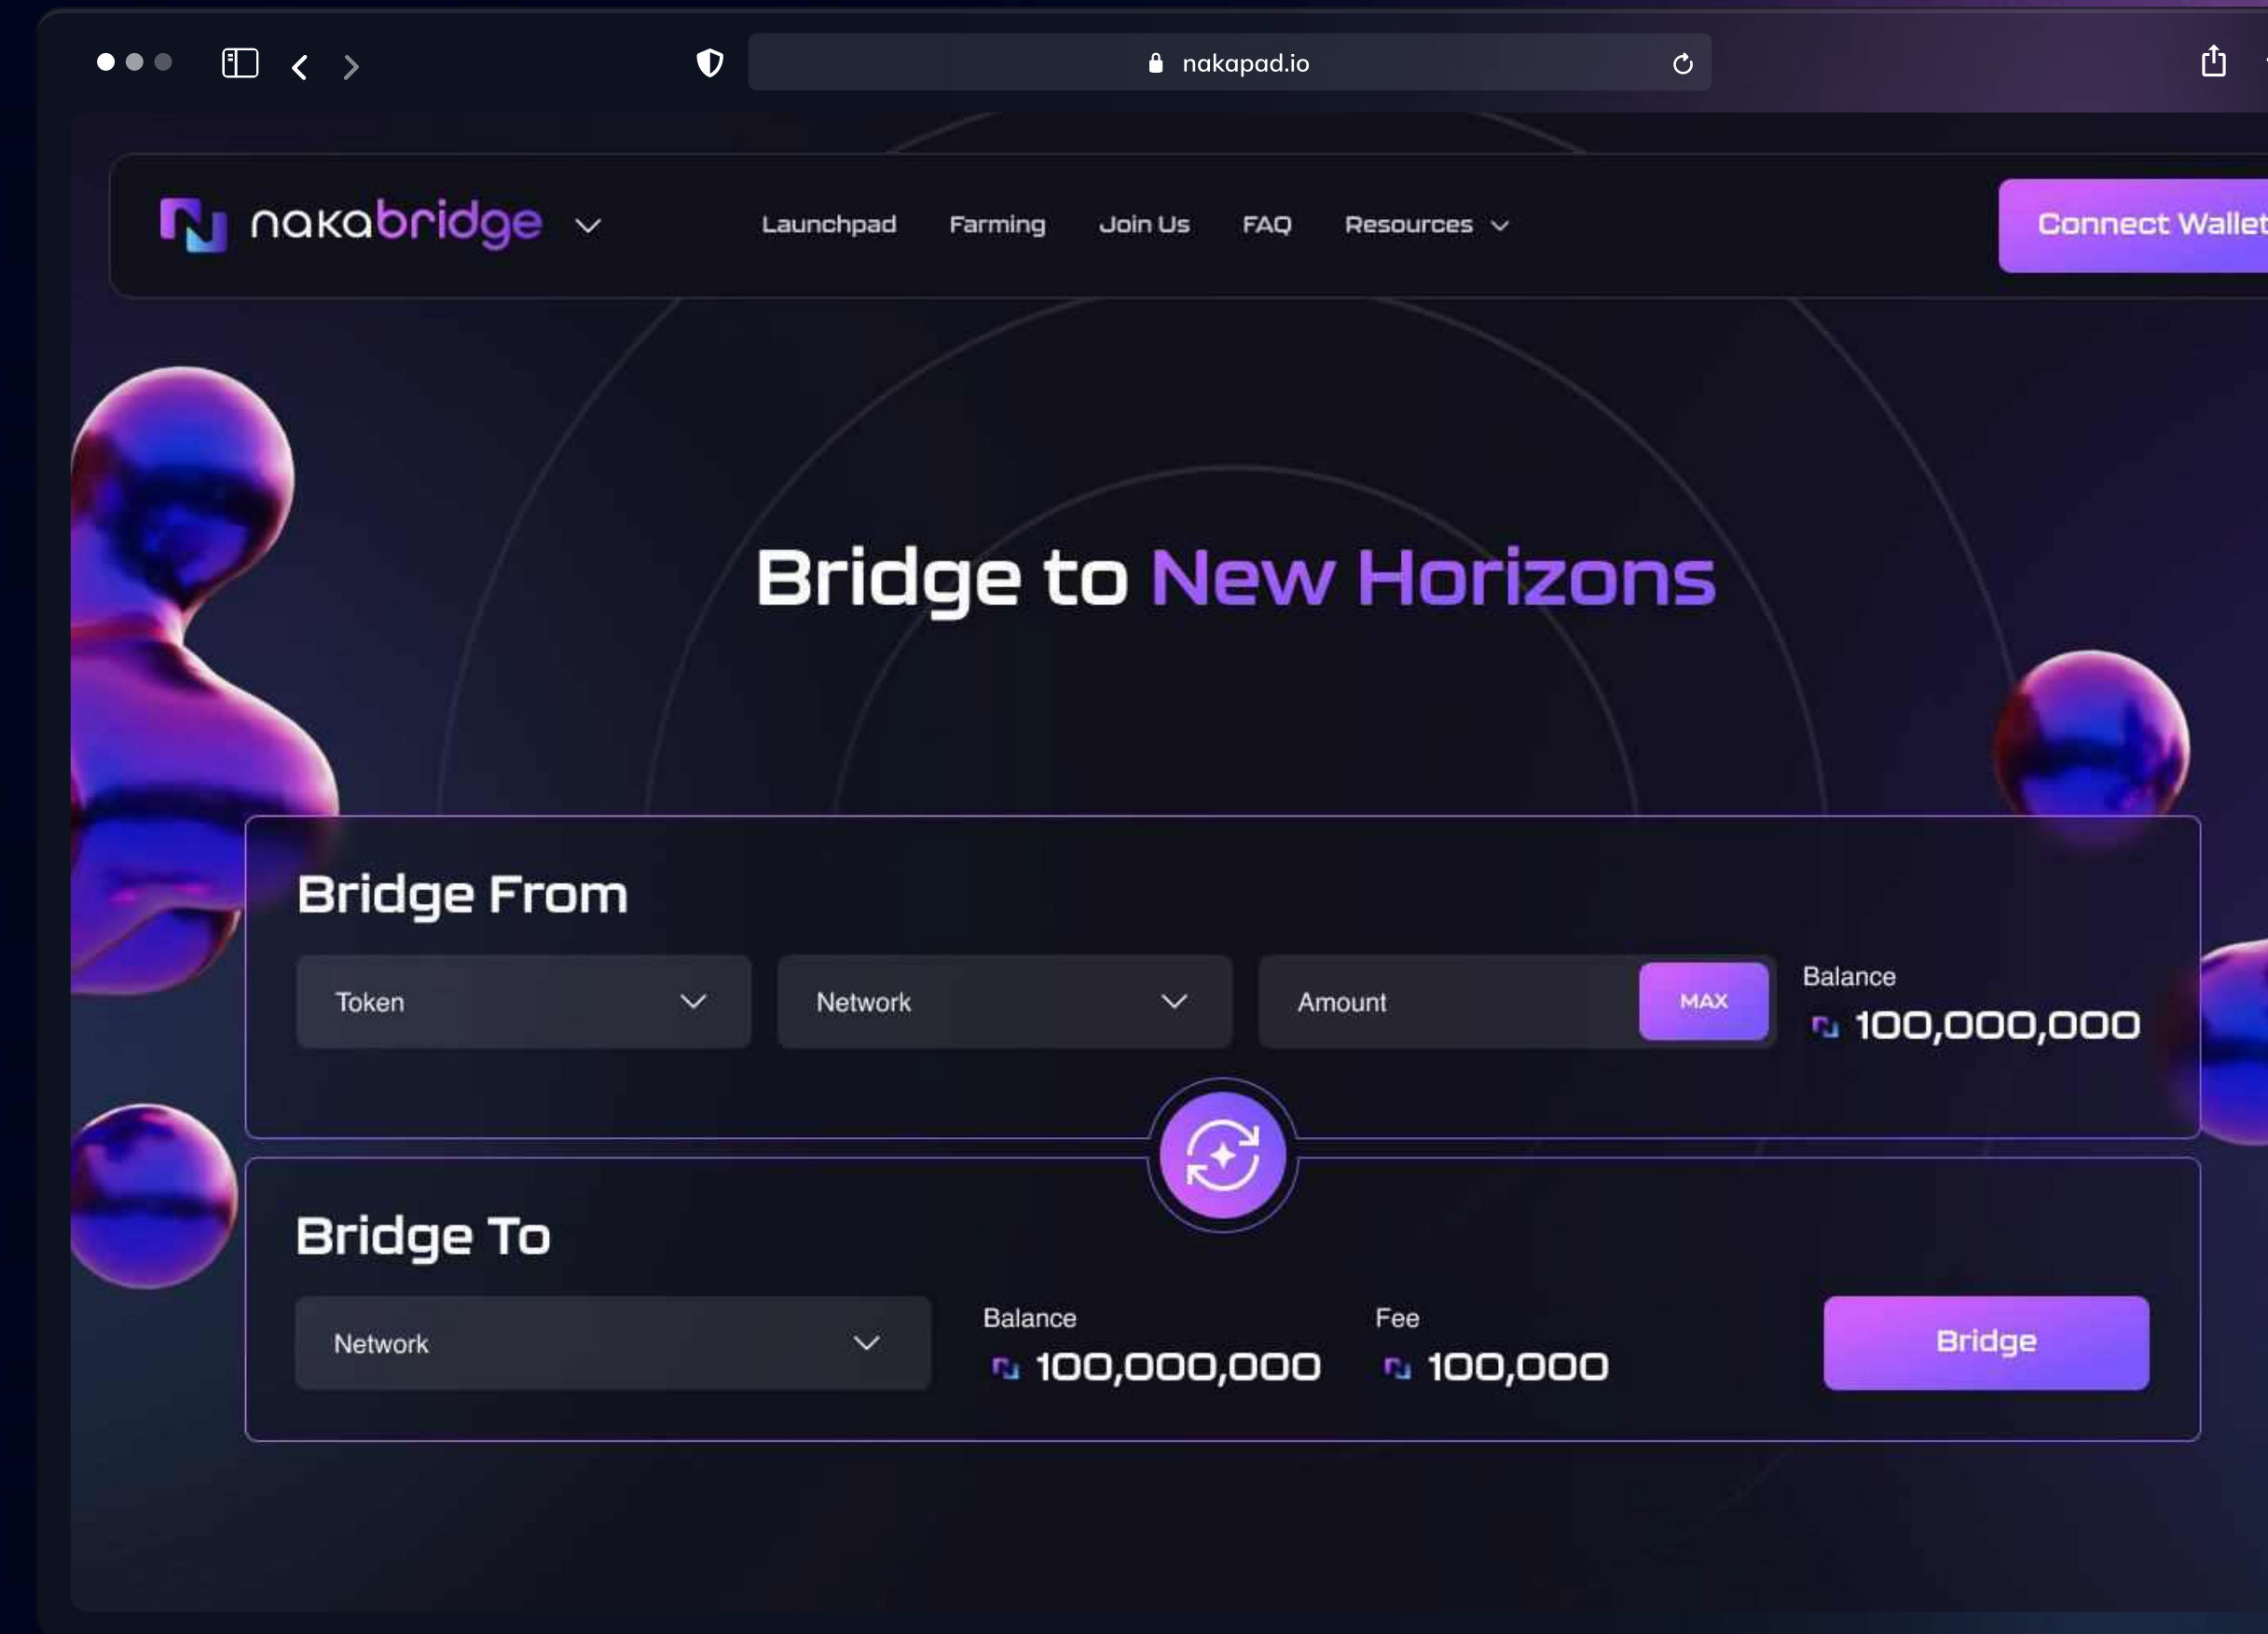

NakaChain: Secure Versatility

Explore Nakachain, a revolutionary blockchain that seamlessly combines EVM compatibility with the rock-solid security of Bitcoin. Step into a world where technology's boundaries are ever-expanding, guaranteeing swift and seamless transactions on a robust platform.
