

Access The Next-Generation of Crypto Launchpads

Problem

Navigating cryptocurrency is not as straightforward as it appears. The key lies in investing in a project that will endure, advance, and offer a sustainable business model along with token appreciation.

Currently, launchpads primarily provide a technical foundation solely for fundraising. However, there's a need to assist projects throughout their entire lifecycle to foster shared success and drive increased revenue.

Nakapad goes beyond the norm, offering support for meme tokens with a secure, innovative approach, ensuring both growth and safety in this emerging market.

Why Choose the Naka Ecosystem?

SOLVING THE CHALLENGES IN BLOCKCHAIN PROJECT LAUNCHES

92% FAILURE RATE

Without the right mentorship and solid support system in place, tackling the state-of-the-art tech of blockchain has led to an astonishing 92% failure rate among projects.

LIMITED ACCESS

Limited access to early-stage investment opportunities often hinders the growth of startups.

LAUNCH COMPLEXITY

Innovators and project founders often face complex launches. Navigating technical, regulatory, and liquidity challenges makes project initiation daunting.

A Case Study in Project Launch

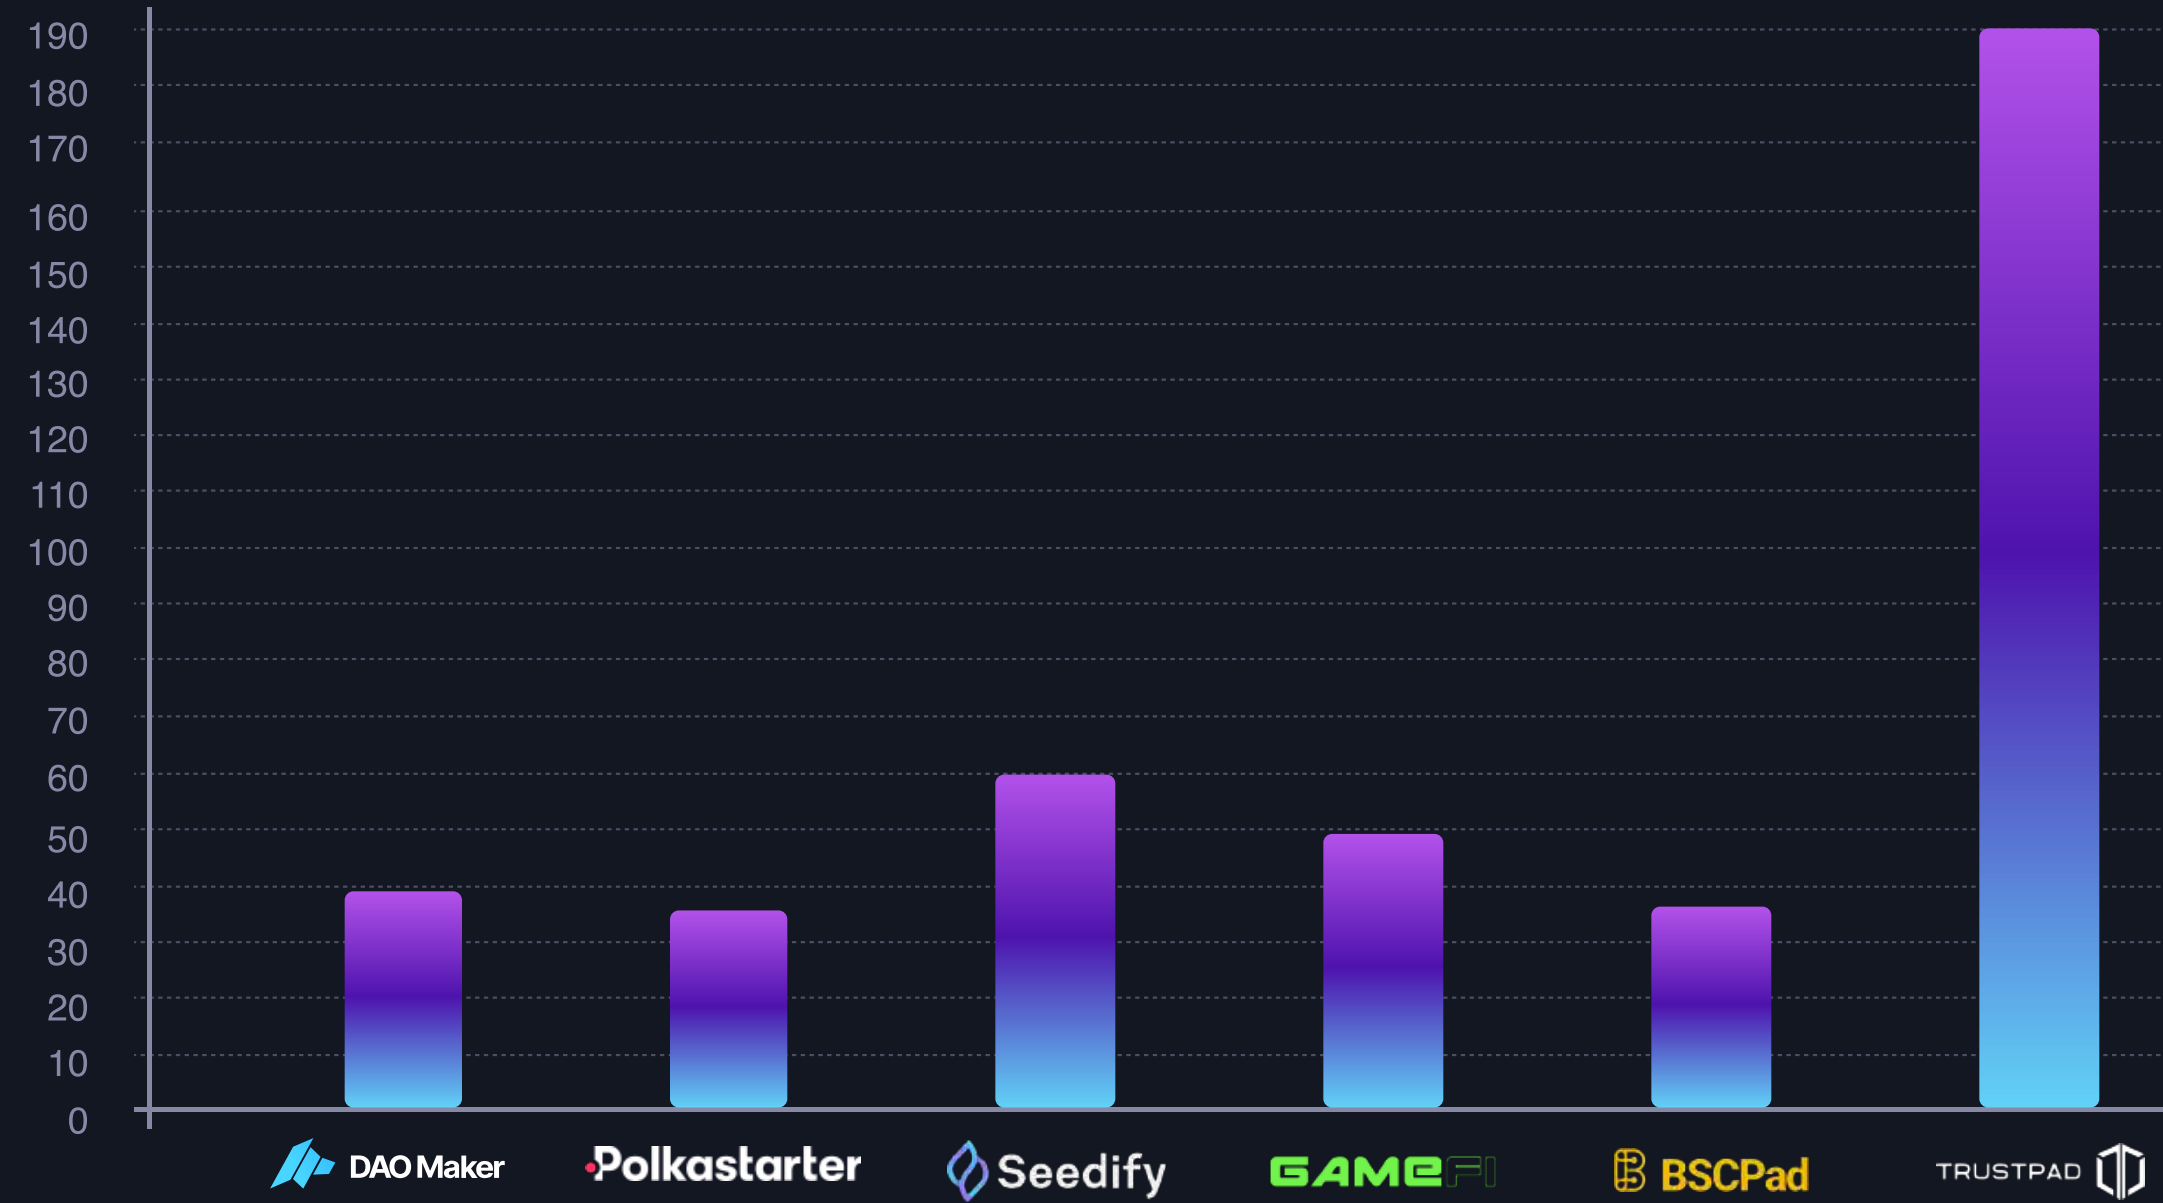

- **NAKAPAD** will play a private role in making projects survive and thrive and give them the tools needed to overcome changes and market fluctuations :
- Despite being a real project with a tangible product, significant user base, and extensive marketing efforts, the \$KASTA token experienced a drastic decline of -98%.
- The project encountered hurdles due to an inadequate token economic model, underestimation of the utility of market manipulation, and a strategy driven by significant token sell-offs.

INTRODUCING THE NAKAPAD SELF SERVICE TOOLKIT

Reward Pool

Safe Vault

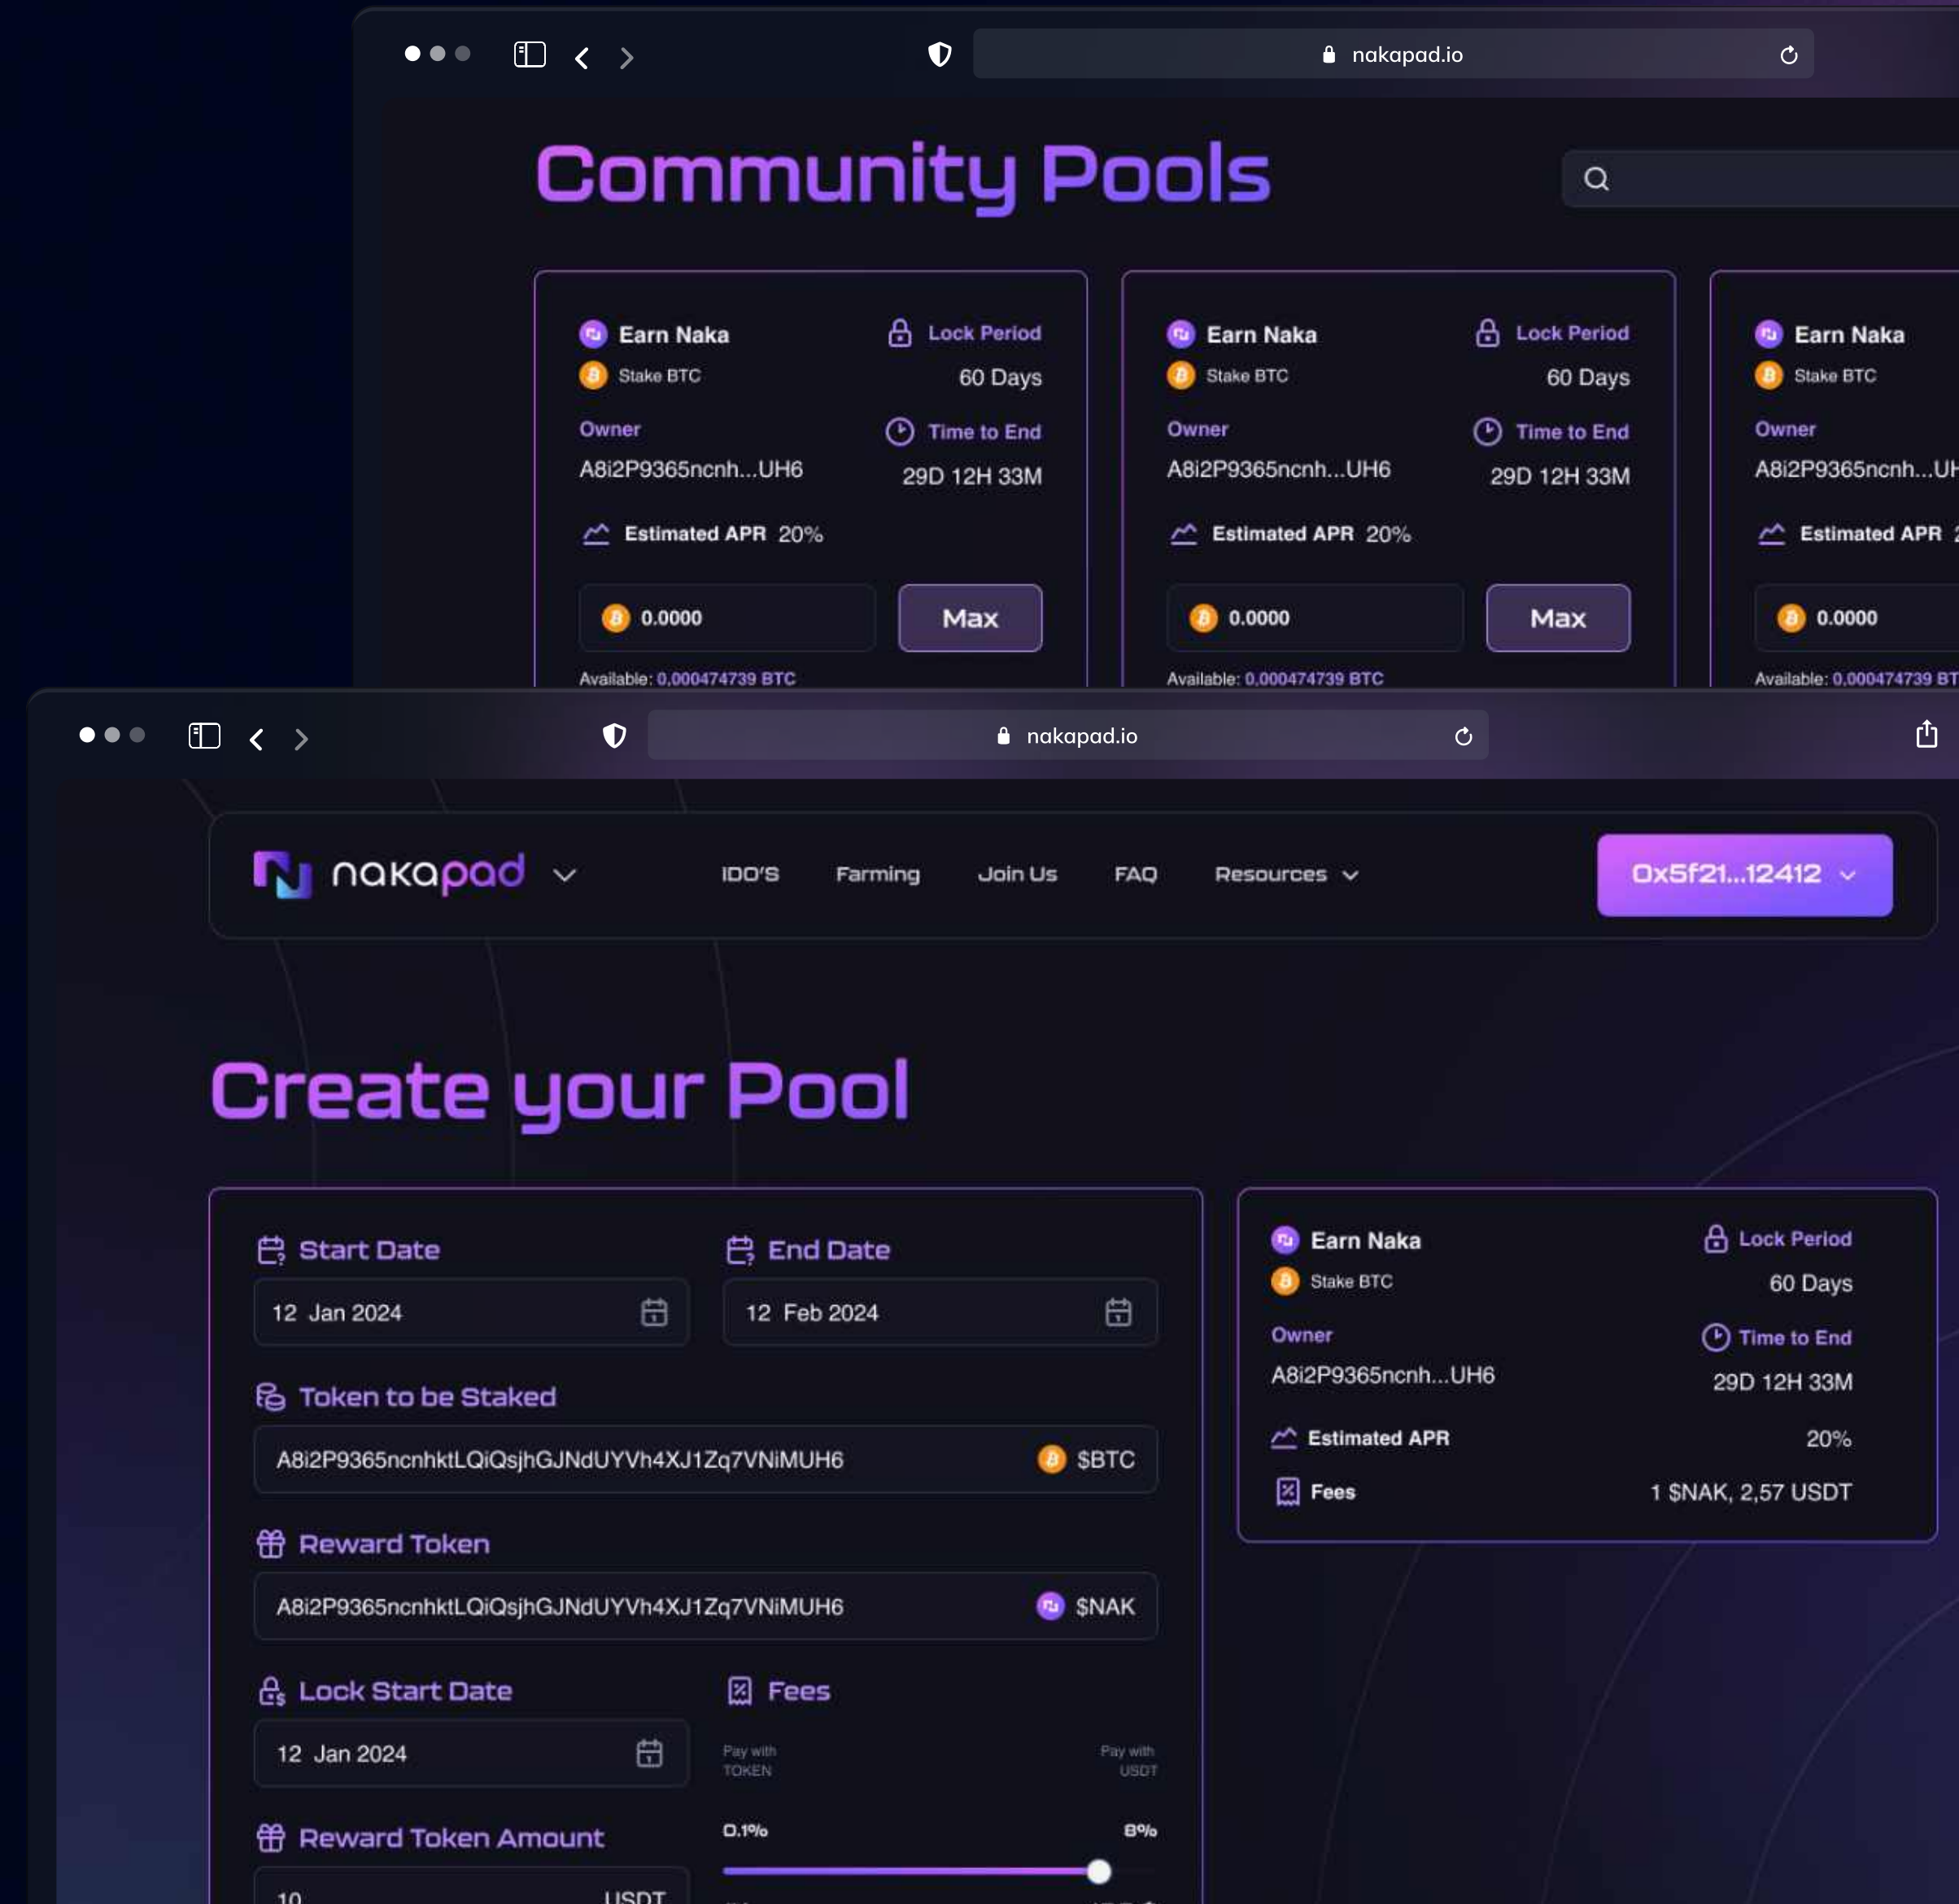

Token Minter

Block Incinerator

Reward Pool

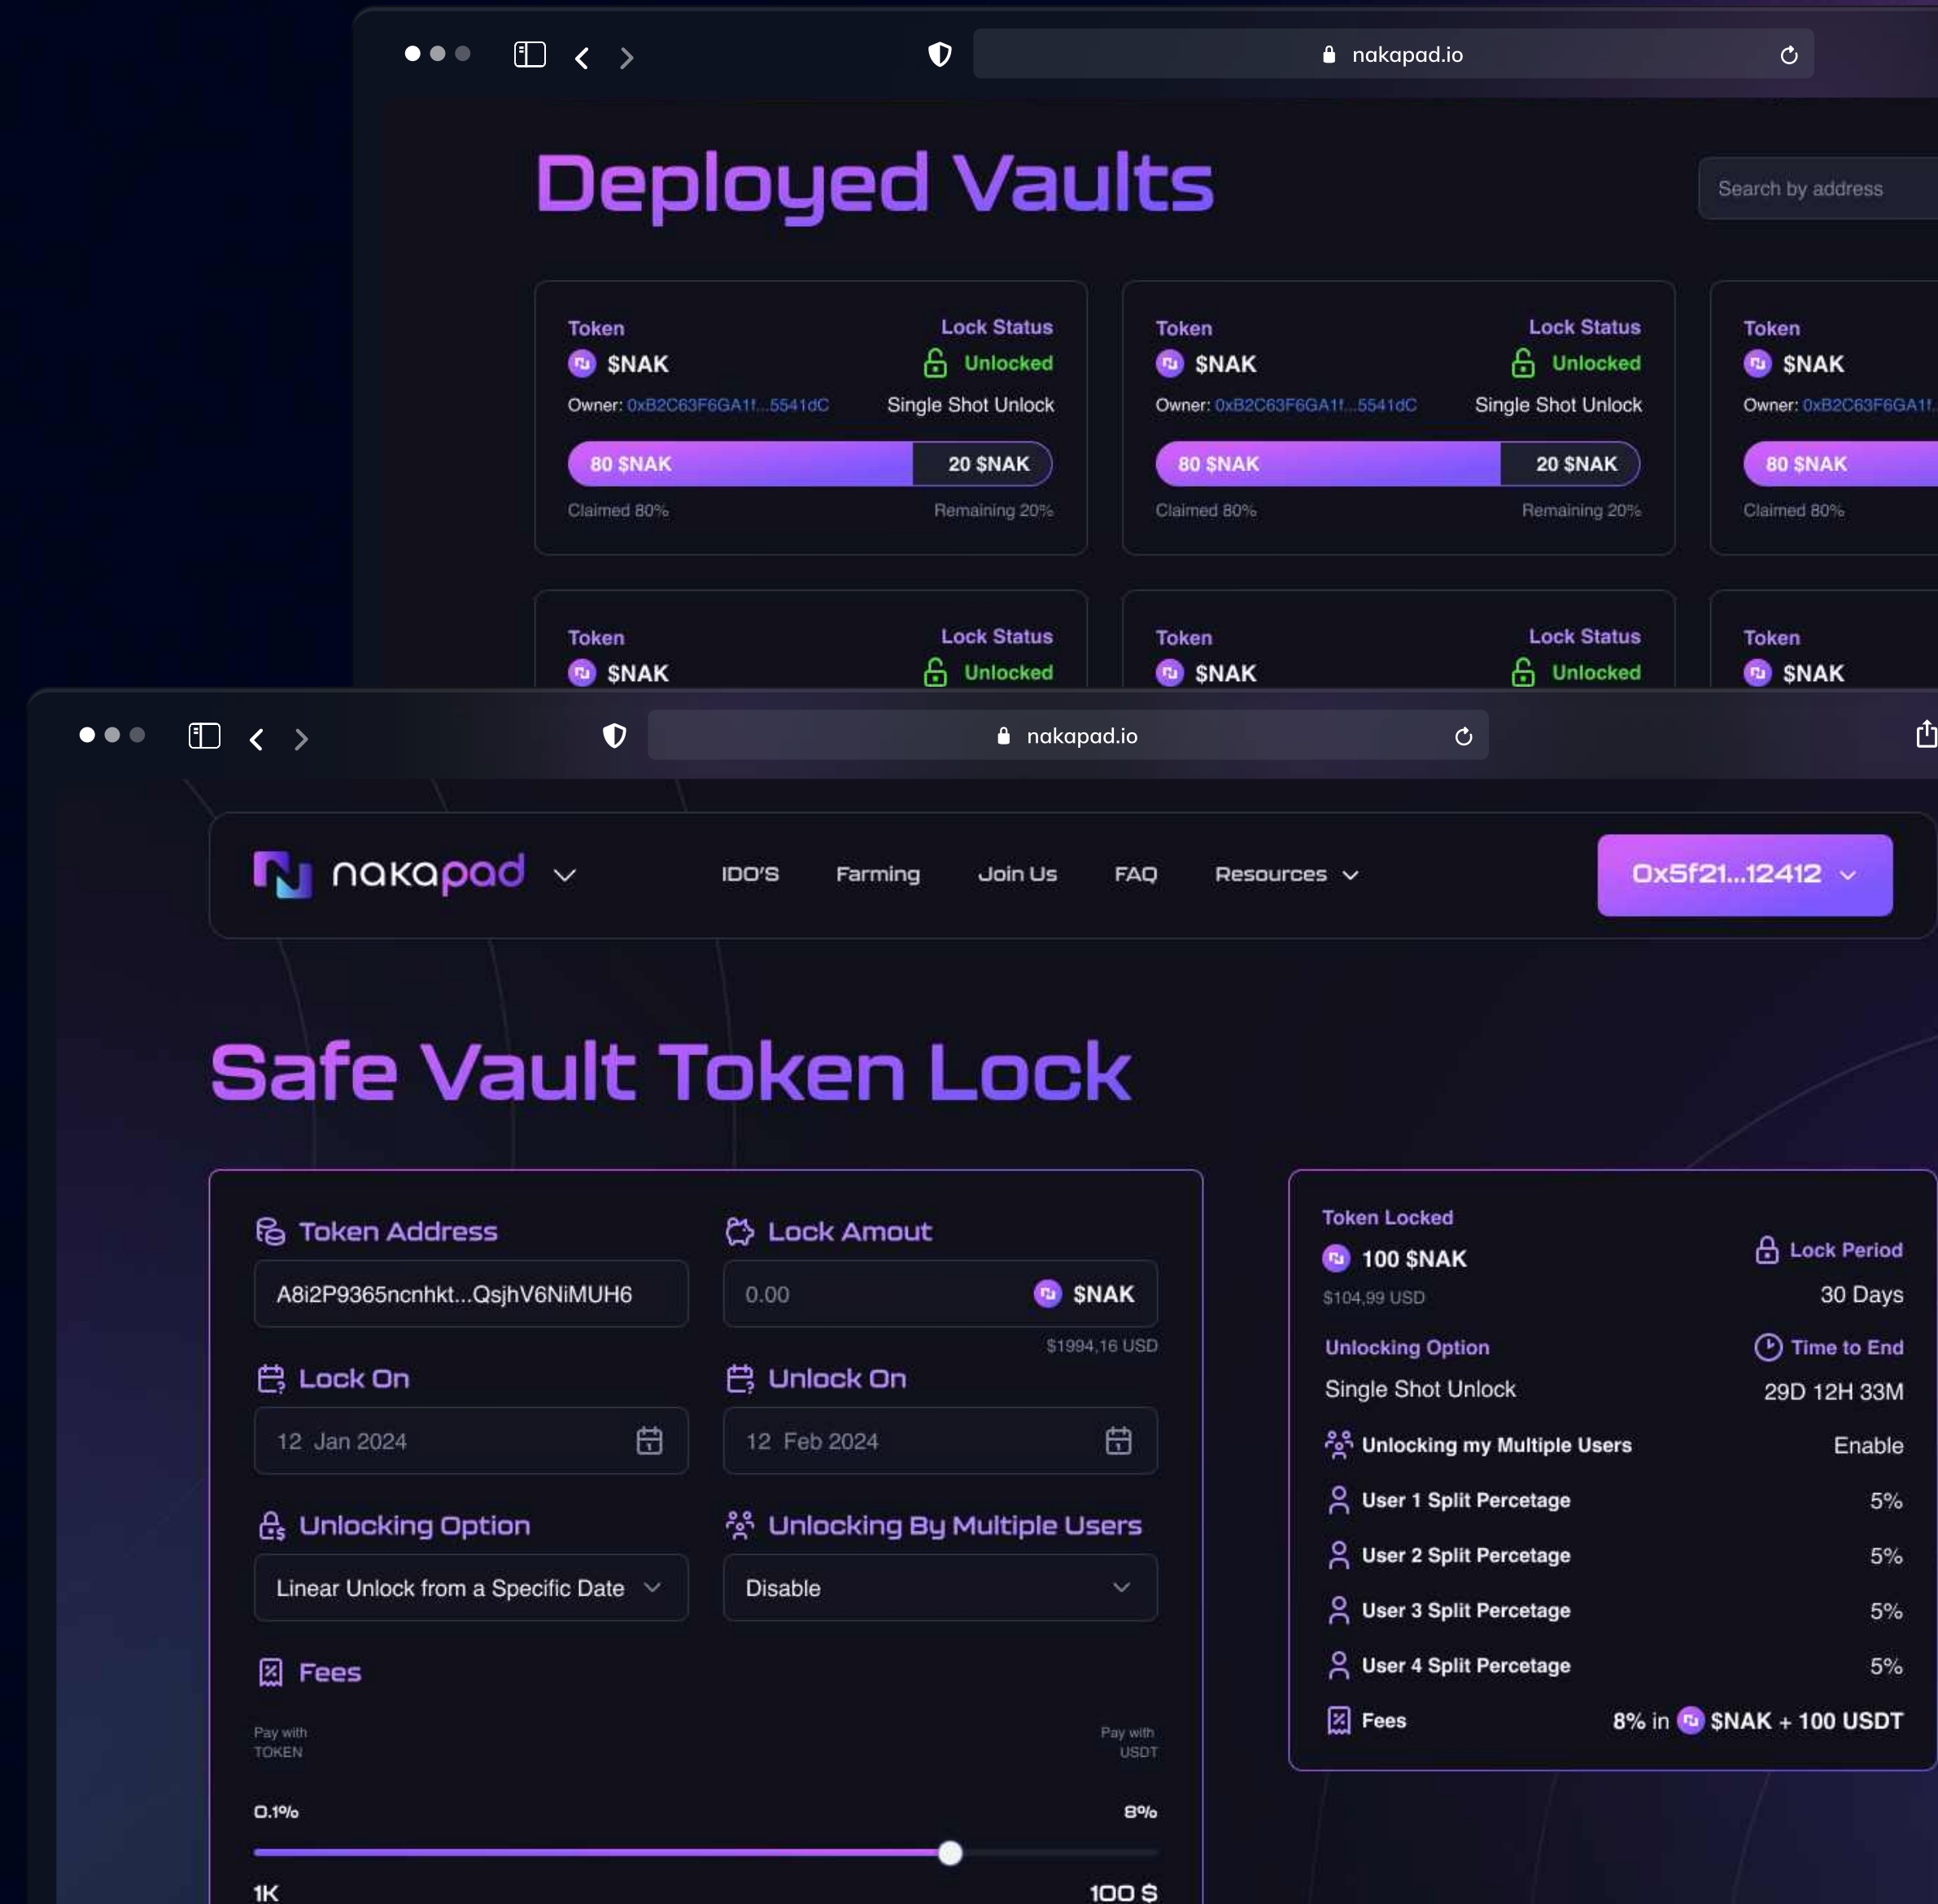

Enhance your community engagement with our Reward Pool, designed for easy setup of custom reward schemes. This feature keeps your community motivated, allowing for adjustments based on feedback. With our user-friendly interface, adapting to your project's growth is straightforward, ensuring sustained community involvement and loyalty.

Safe Vault

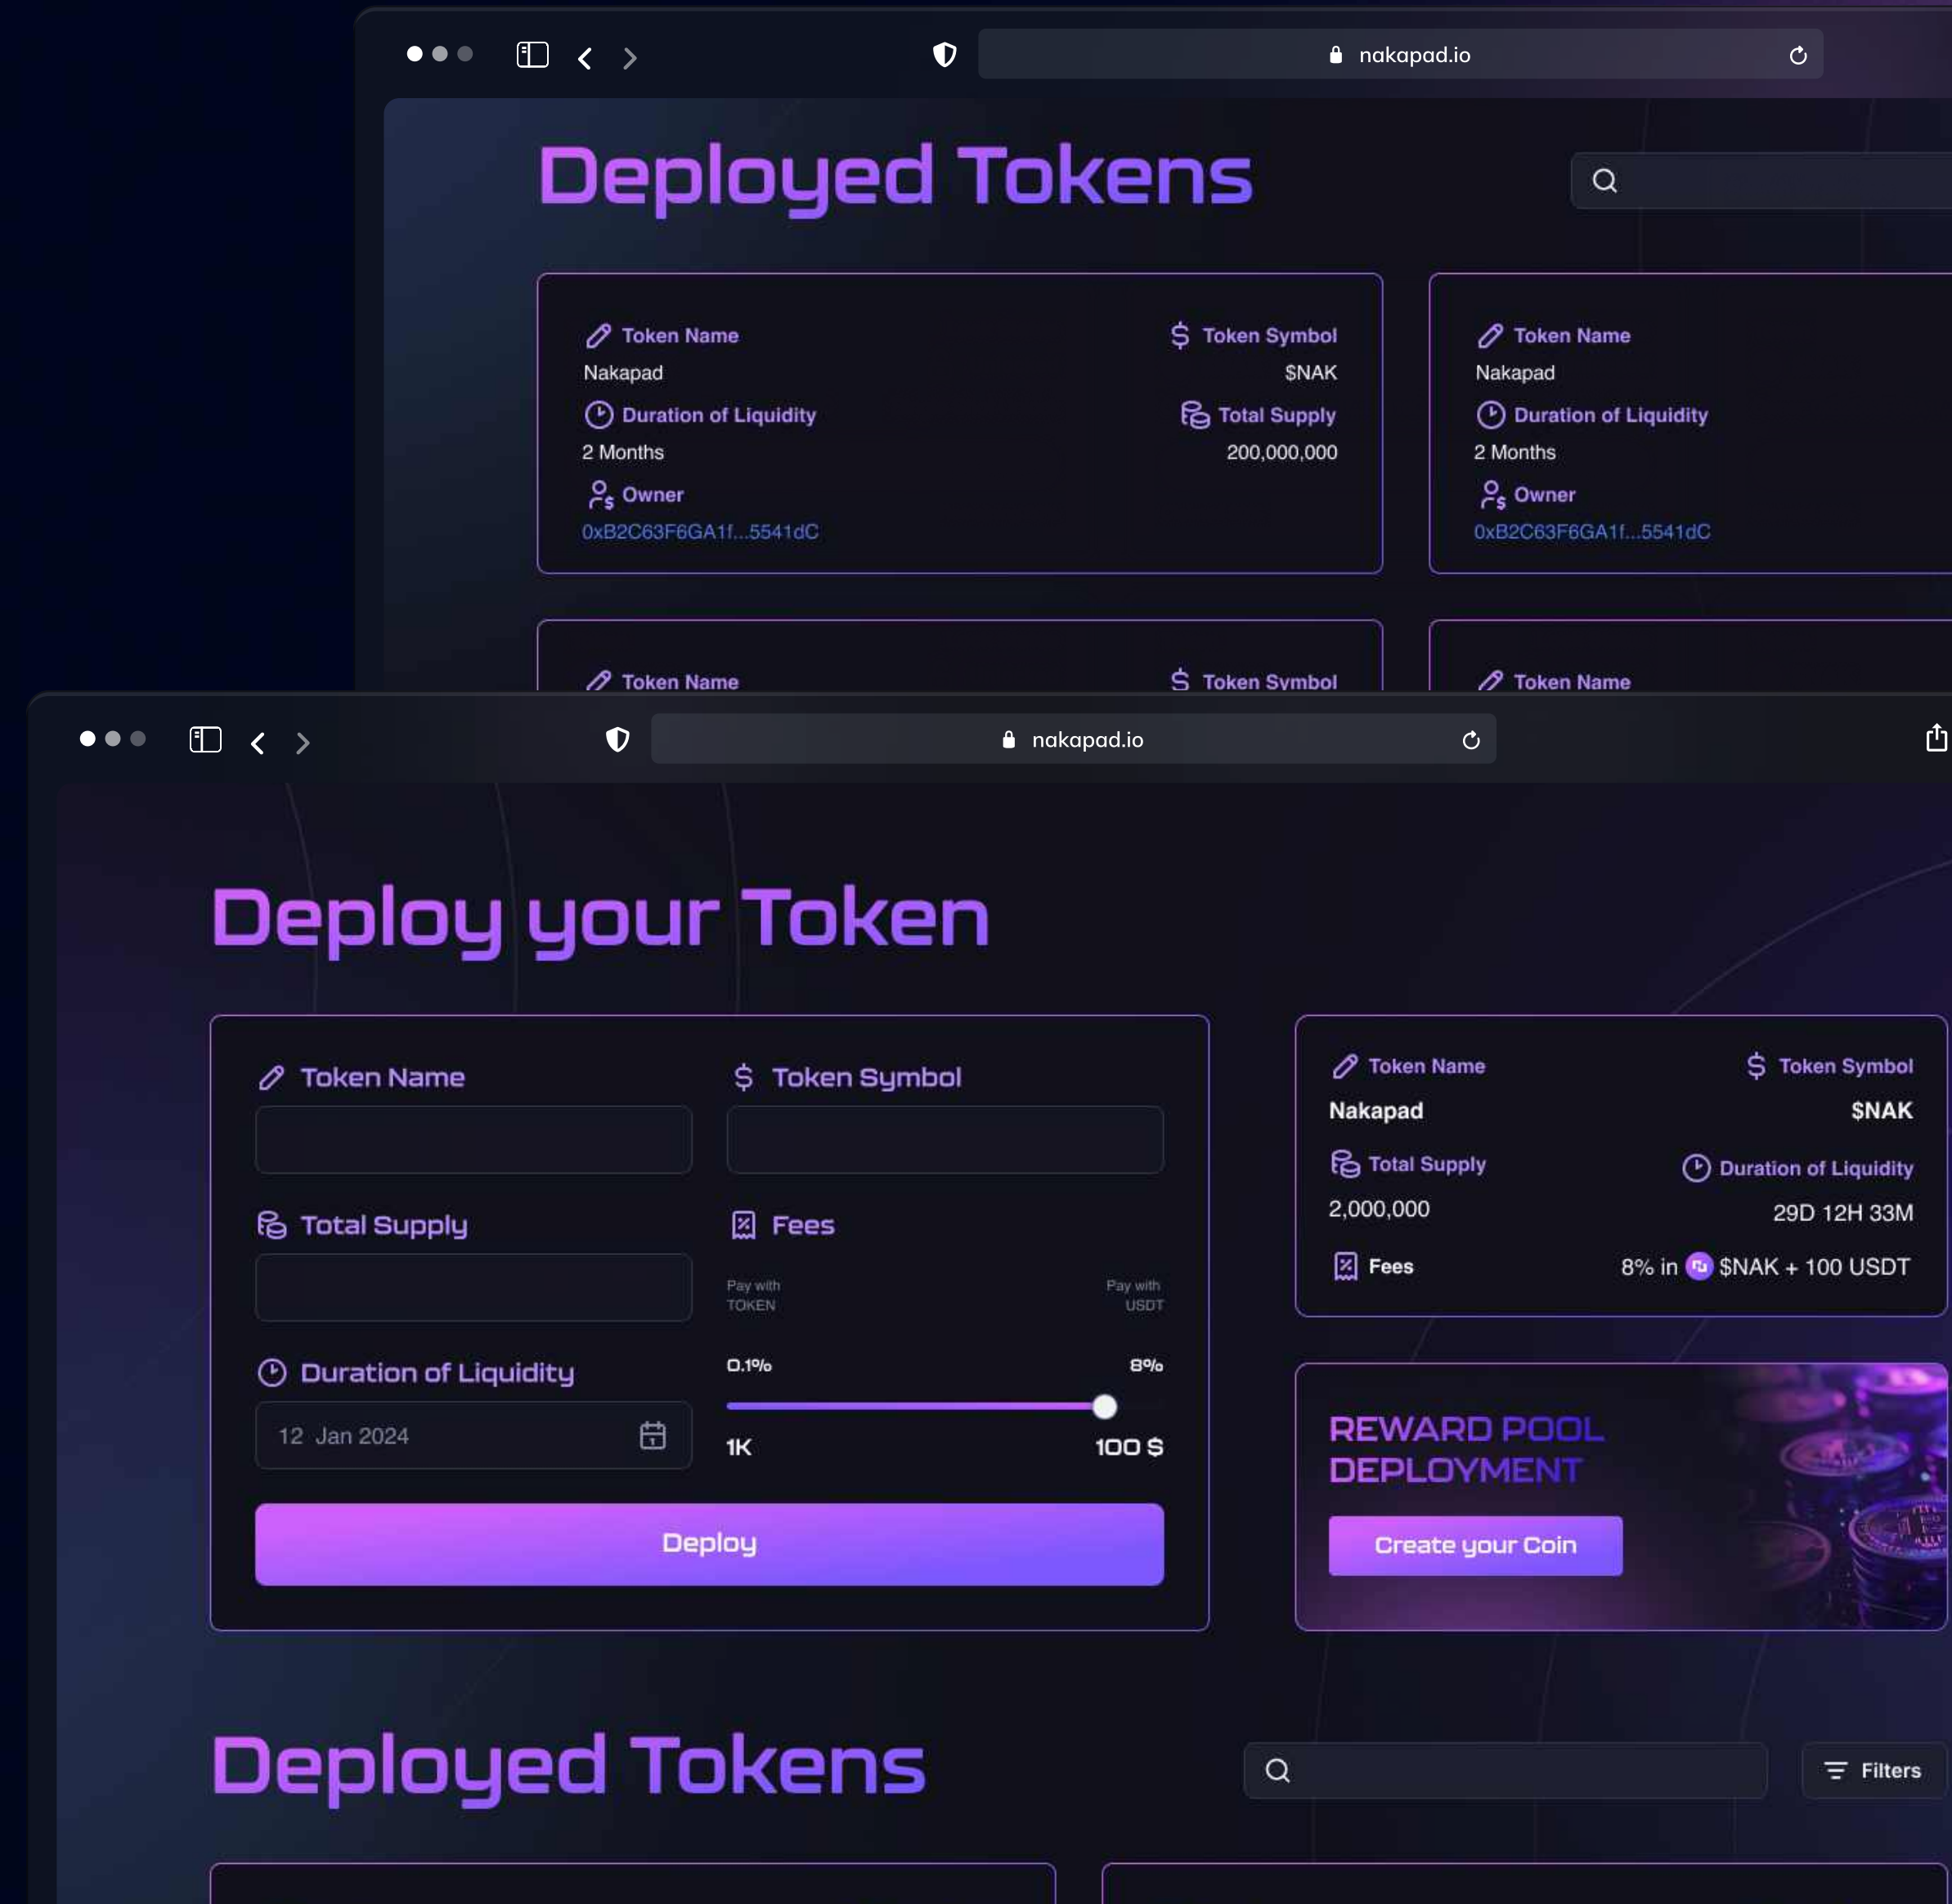

Our Safe Vault guarantees the integrity of your project's finances. Offering a transparent and dependable mechanism for fund management and token distribution, it ensures accuracy and accountability in every transaction. Crafted to foster confidence among contributors, it lays a solid groundwork for your project's prosperity.

Token Minter

An intuitive feature that simplifies the token creation process. With an interface that caters to both the tech-savvy and those new to blockchain. This tool aims to guide you through creating and launching your token with ease. Reinforcing our focus is on removing technical barriers, making token launch accessible to a broader range of projects.

Block Incinerator

Introducing a verifiable on-chain mechanism for instant asset burning, triggered either instantly or when specific conditions are met. Say goodbye to vague promises about buybacks and burns. Our innovative solution ensures complete transparency and verifiability, with all actions executed directly on-chain.

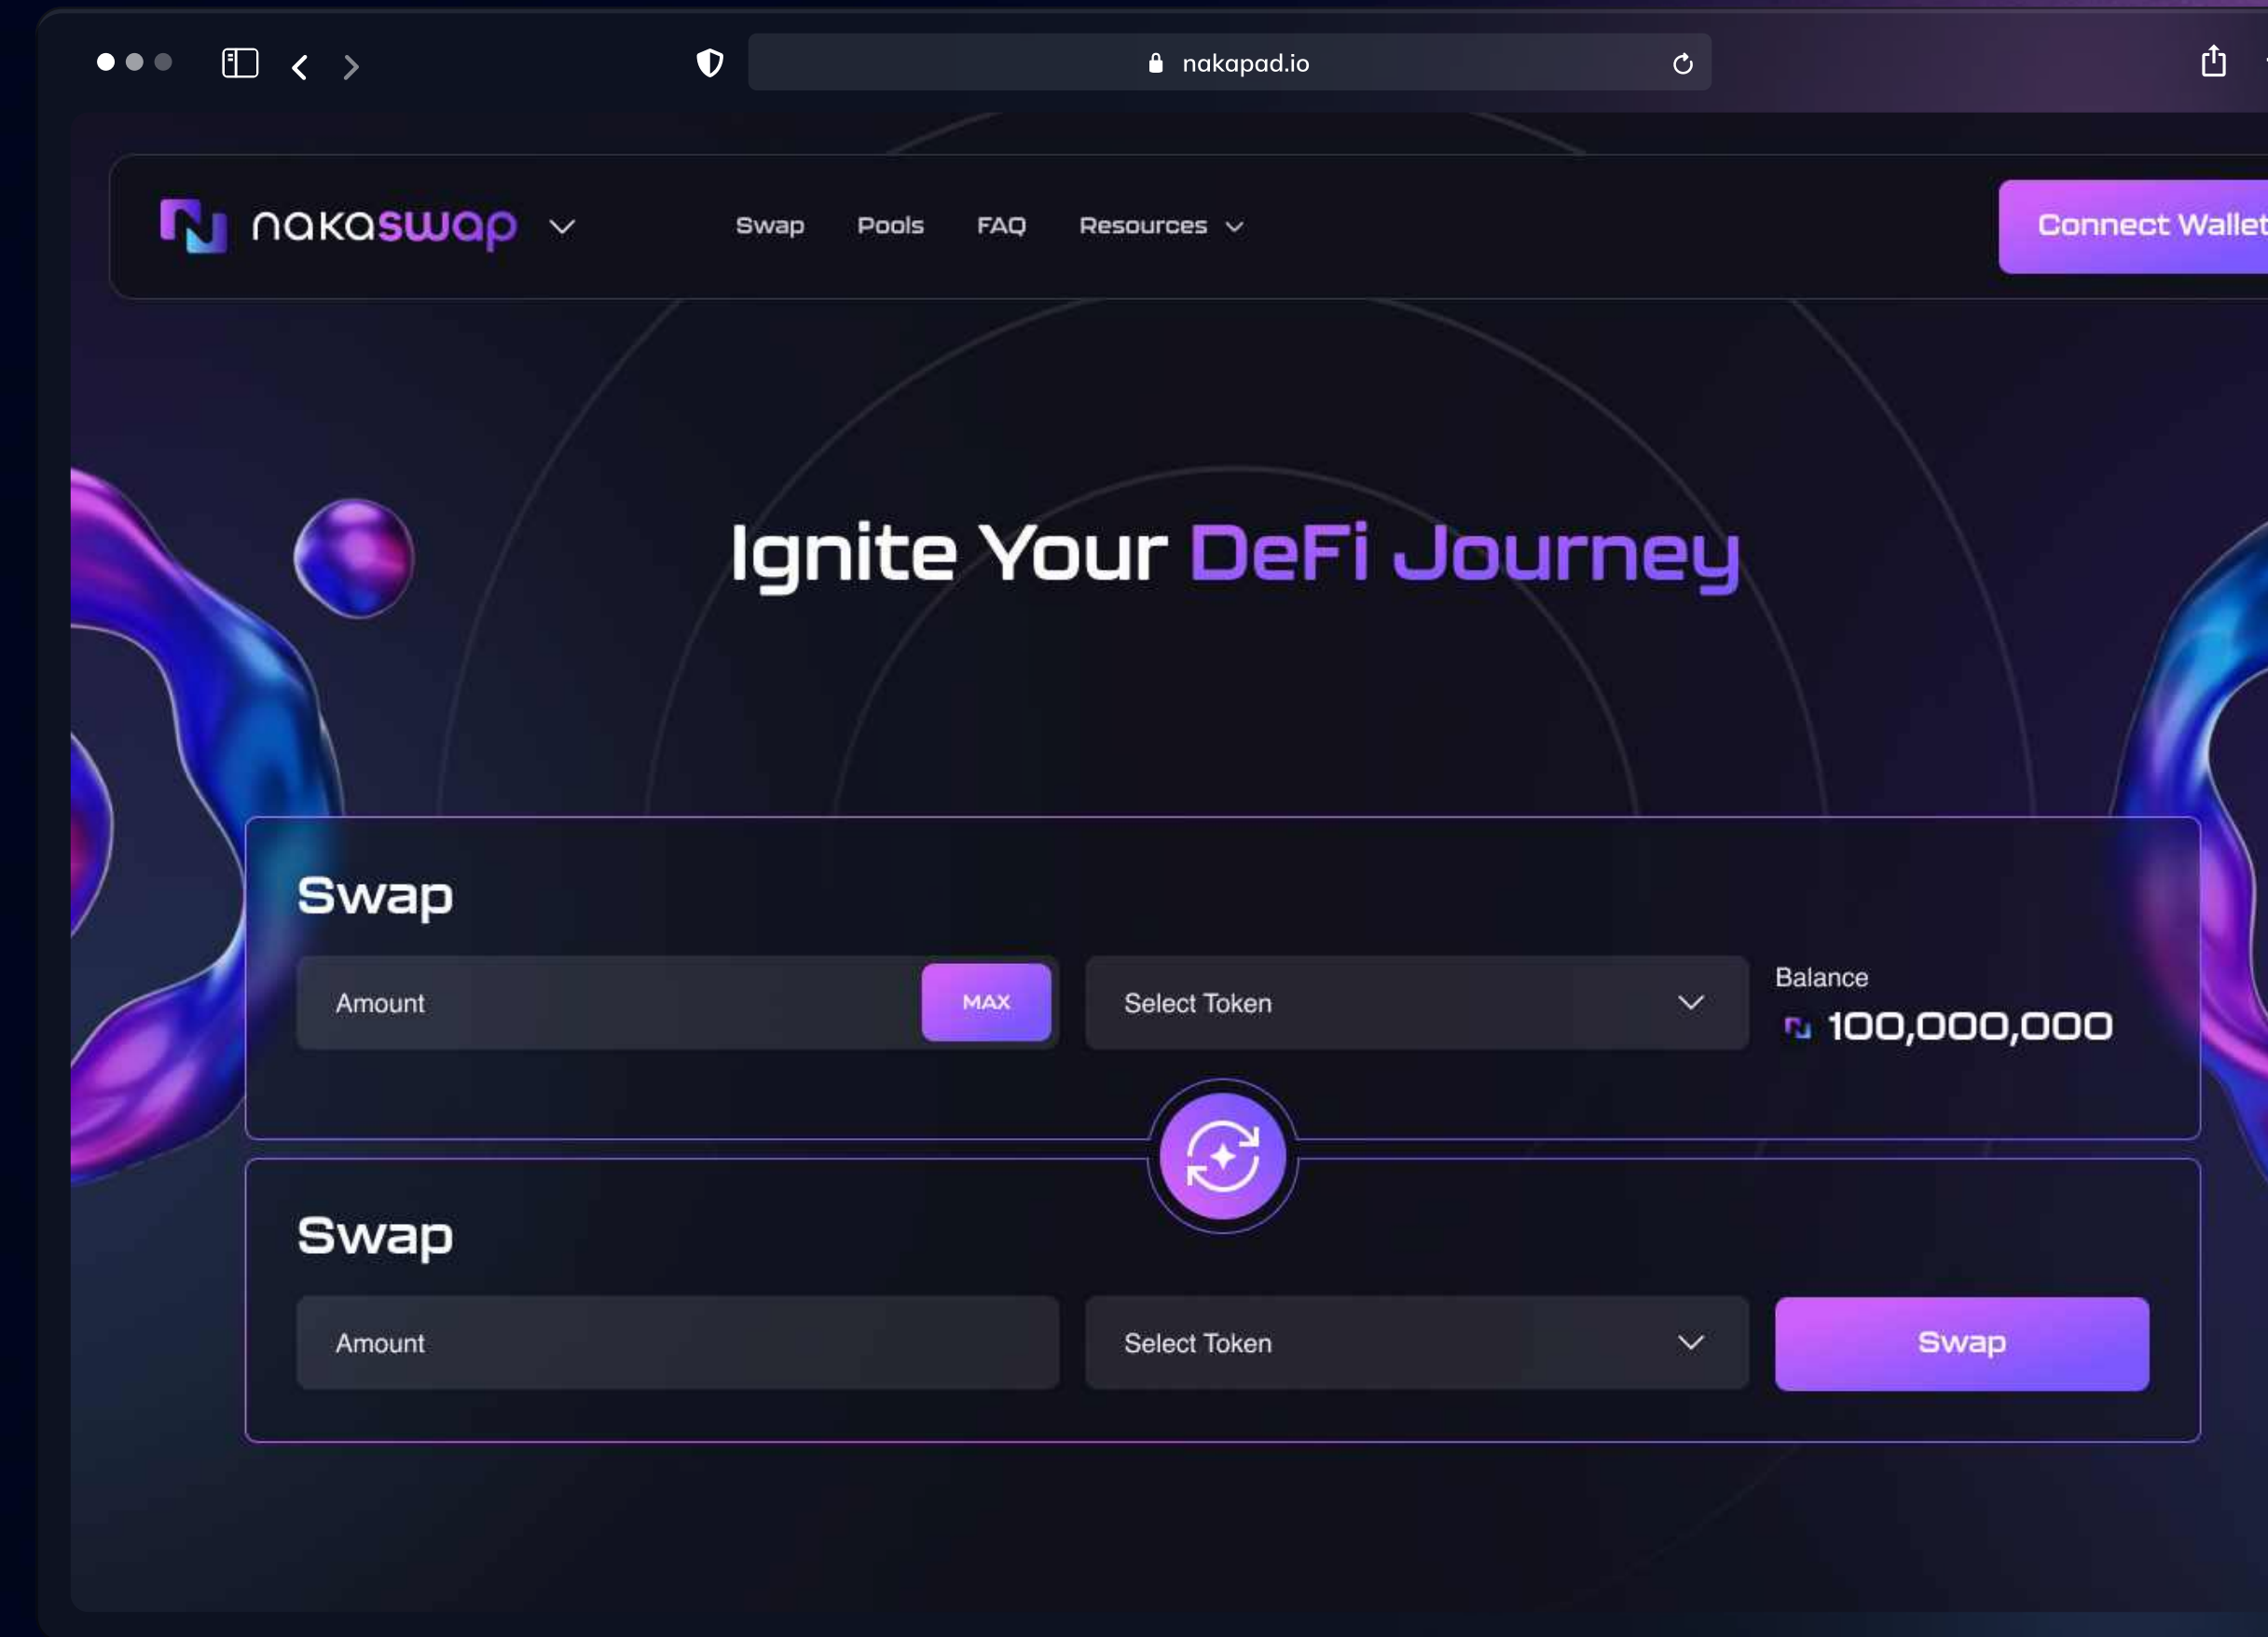

The image displays two overlapping screenshots of the Nakapad website interface. The top screenshot shows the 'Burned Assets' page, which includes a filter dropdown set to 'All' and a table listing burned assets. The table has two rows: 'LP Token #1' with contract address '0xB2C63F6GA1f...5541dC' and 'Standard Token #1' with the same contract address. The bottom screenshot shows the 'Block Incinerator' form. The form includes a navigation bar with the Nakapad logo and menu items like 'IDO'S', 'Farming', 'Join Us', 'FAQ', and 'Resources'. A user address '0x5f21...12412' is shown in the top right. The main form area has the title 'Block Incinerator' and several input fields: 'Asset Type' (set to 'LP Tokens'), 'Contract Address' (with a placeholder 'Enter Contract Address'), 'Quantity' (with a placeholder 'Enter Quantity' and a slider from 0.1% to 8%), and 'Fees' (set to 8% in SNAK + 100 USDT). A 'Burn Assets' button is at the bottom. To the right, there is a summary box showing 'LP Tokens' with contract address '01xG4I90JT84x1..d6789c', 'Quantity' of 500, and 'Fees' of 8% in SNAK + 100 USDT. Below this is a 'REWARD POOL DEPLOYMENT' section with a 'Create your Coin' button.

NakaSwap: Liquidity & Launch Hub

Nakaswap stands as your premier destination for liquidity solutions. With our creative incentive programs, projects gain not only a protective buffer but also a significant boost to their liquidity, all while fostering and valuing the community's active participation and support.

 UNDER DEVELOPMENT

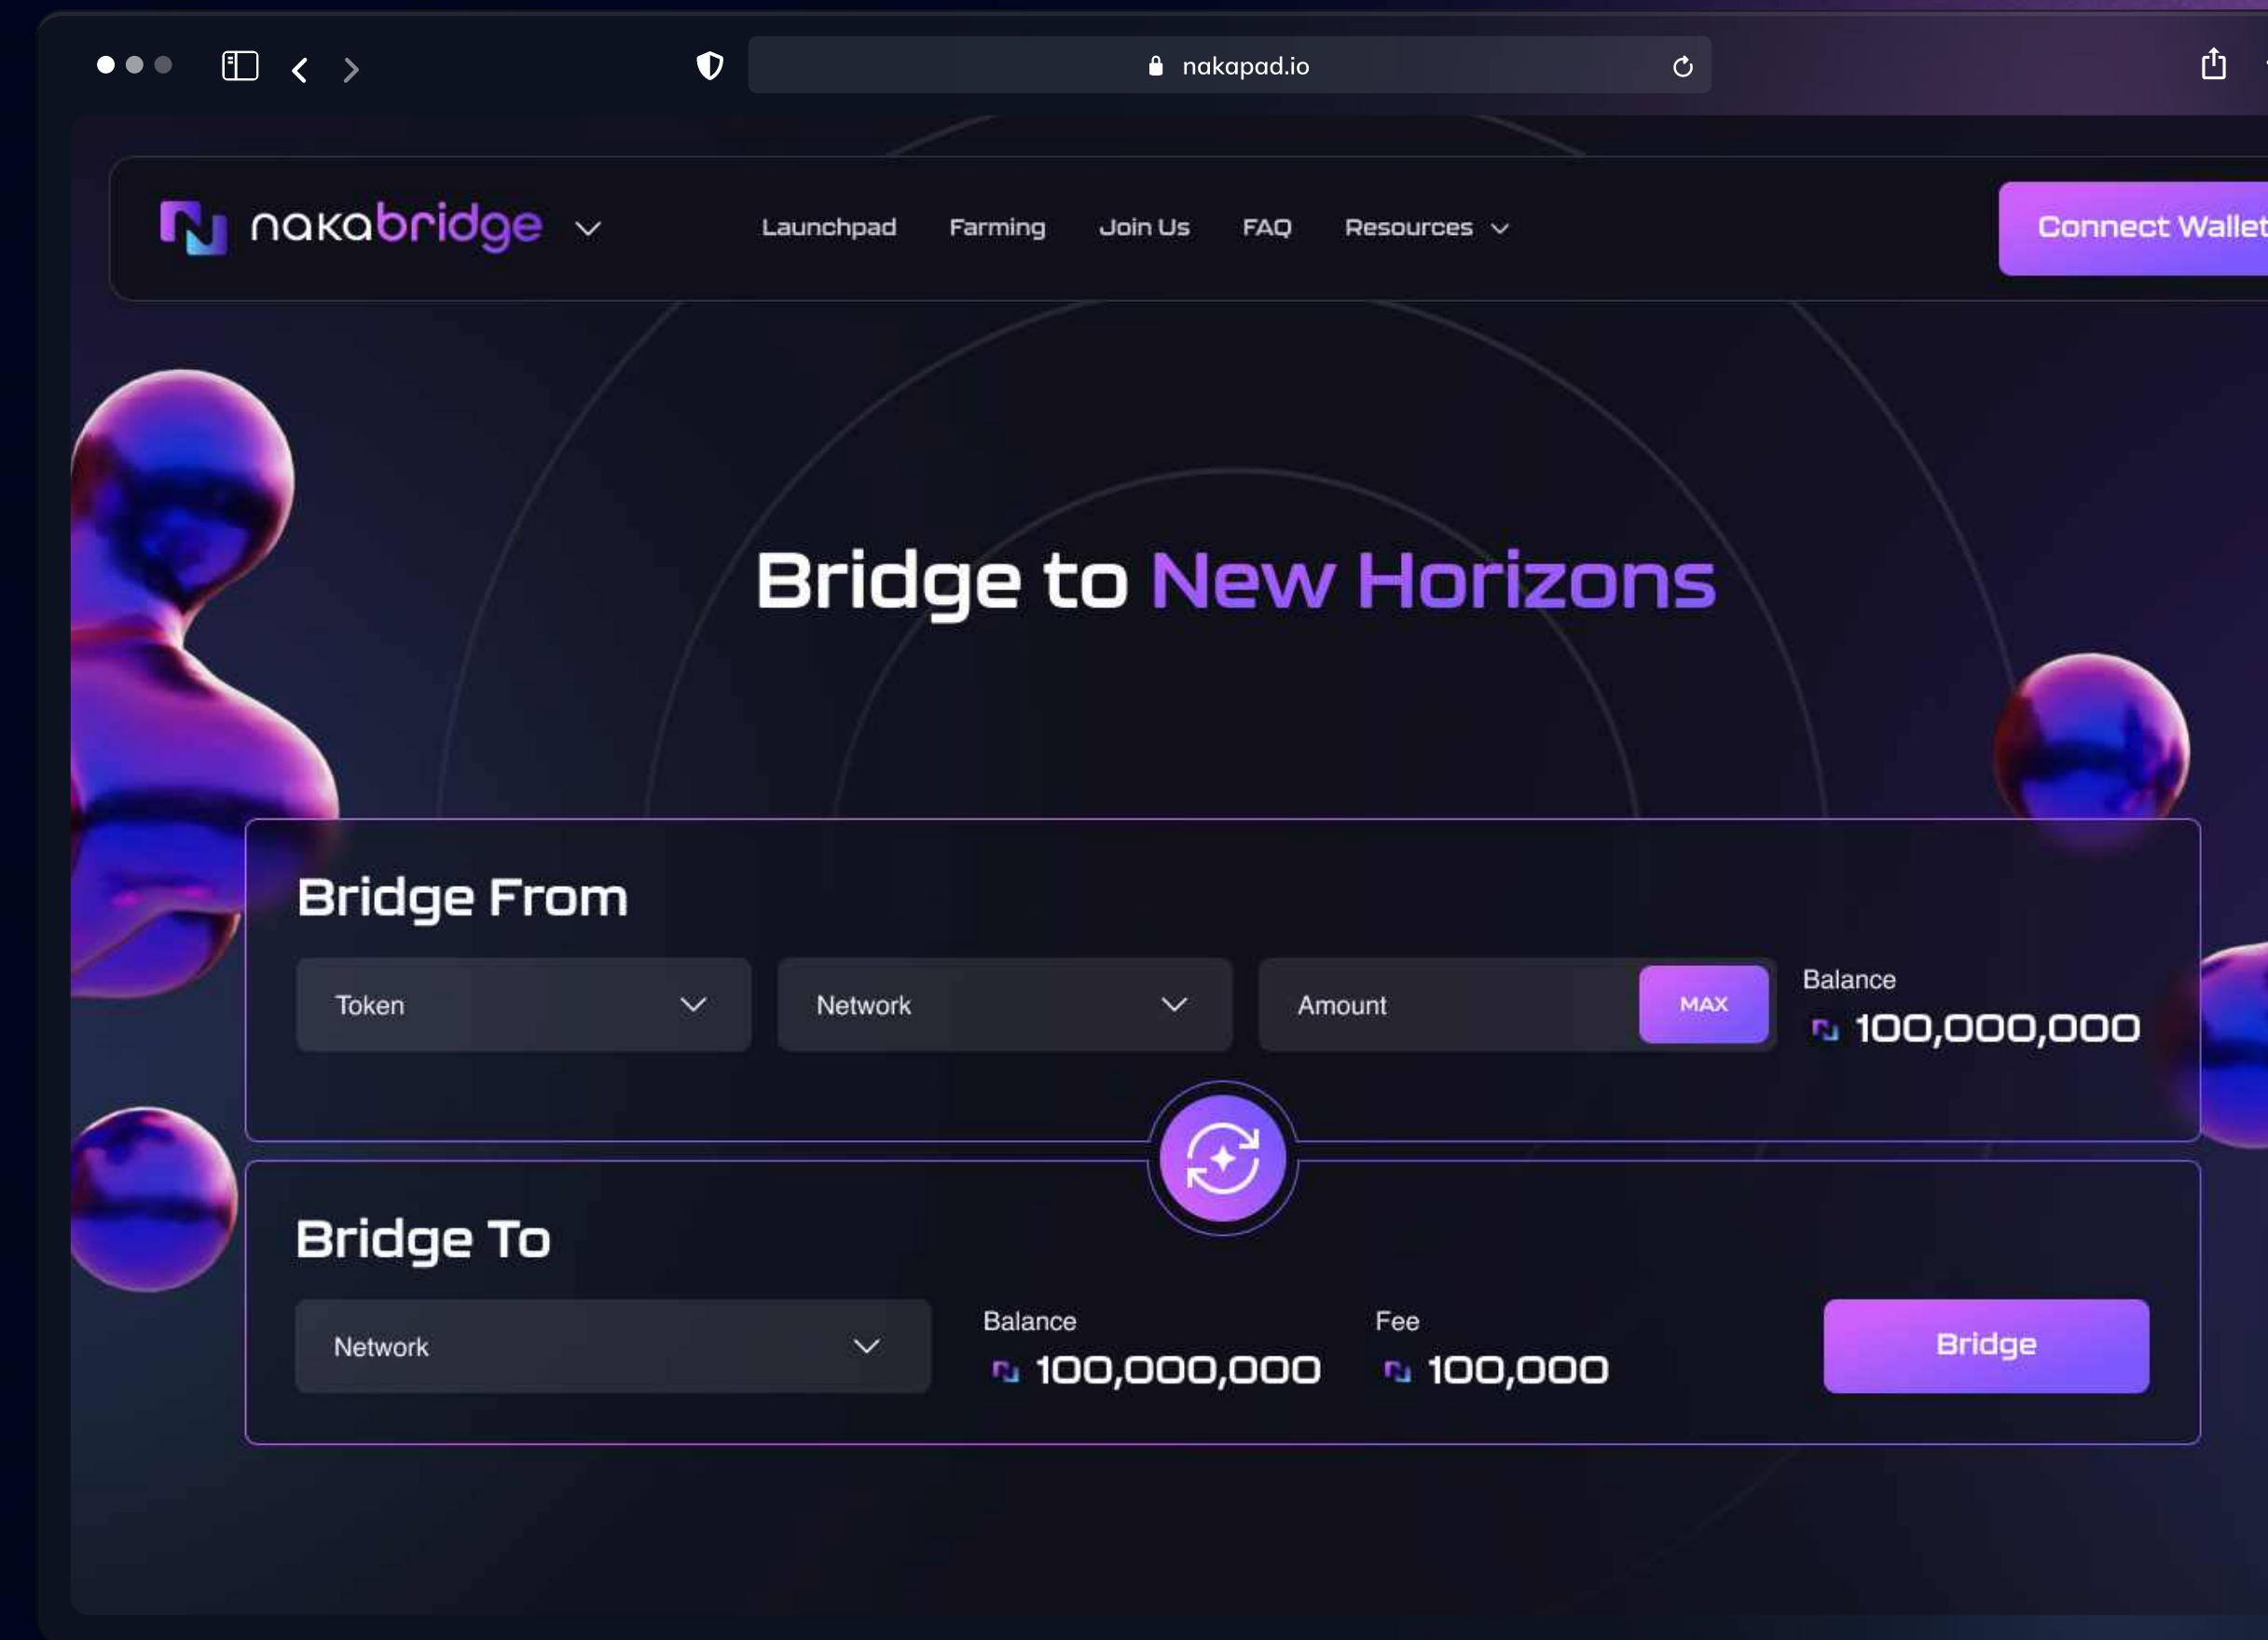

NakaBridge: Seamless Connectivity

Effortlessly bridge your tokens across multiple blockchain platforms, expanding your project's reach and simplifying cross-chain interactions. It's your project's key to surmounting single blockchain constraints, granting access to a wider network that bolsters adaptability and nurtures growth potential.

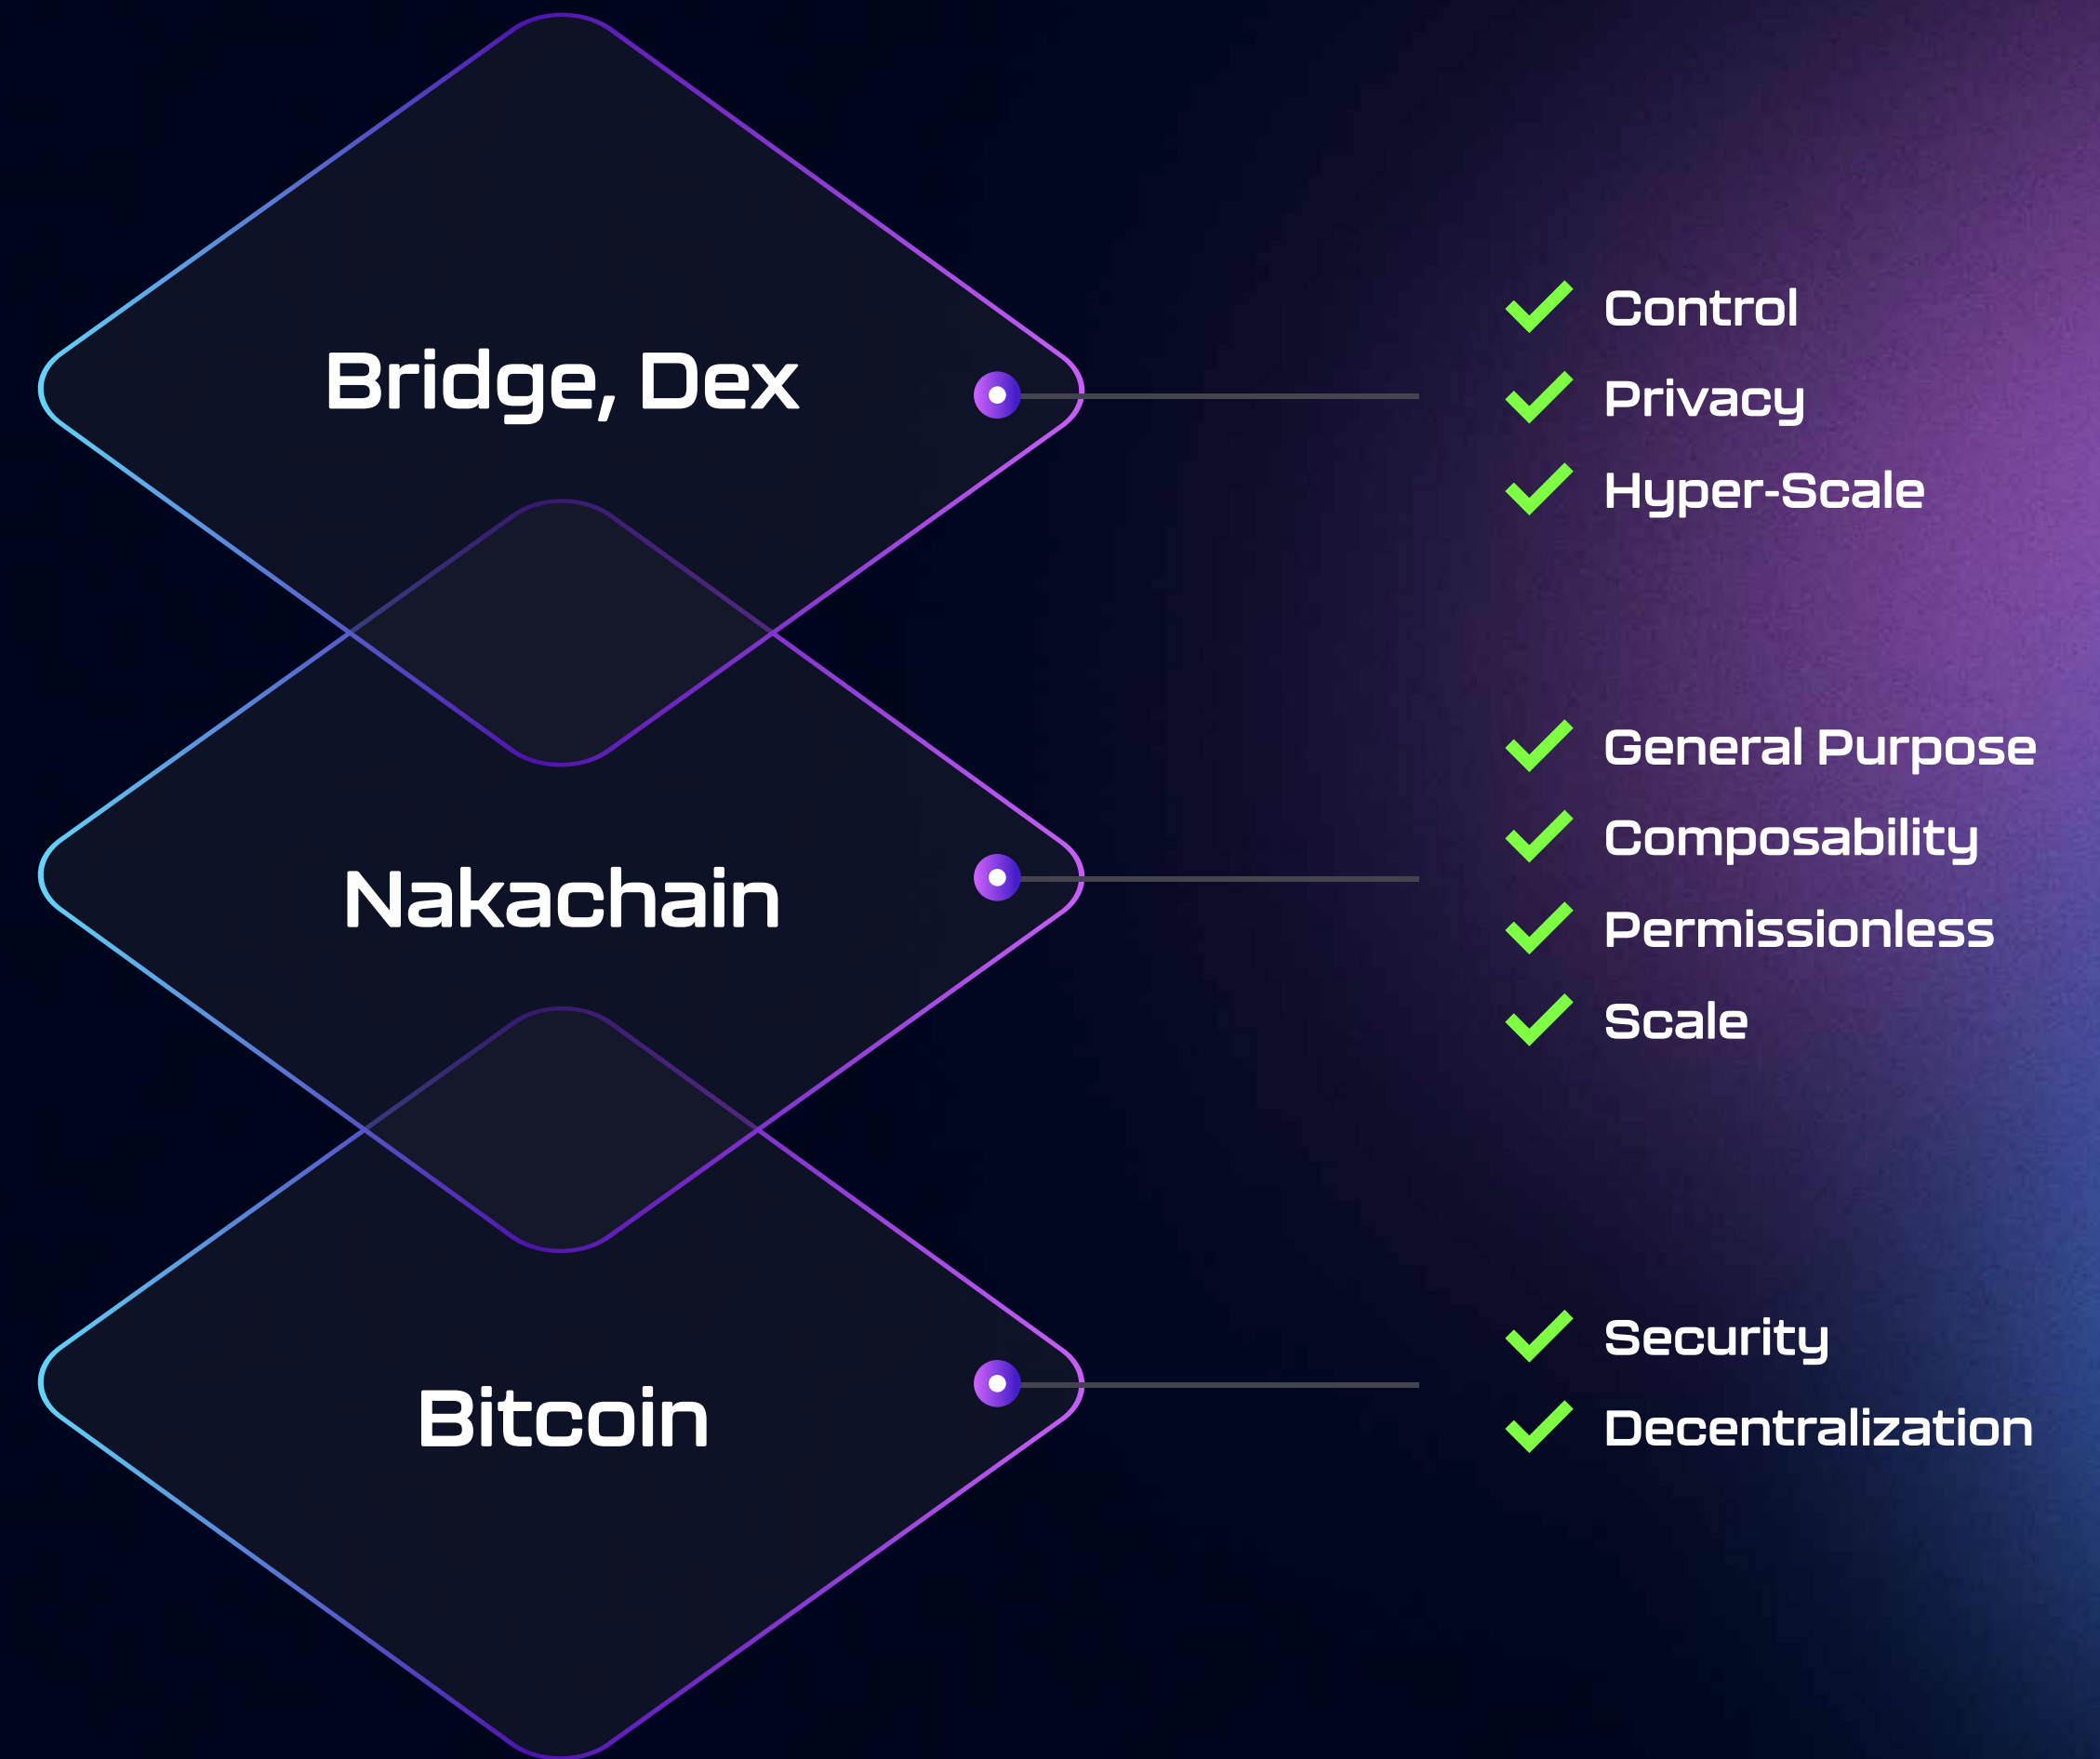

✓ **READY**

NakaChain: Secure Versatility
